Project Geologist

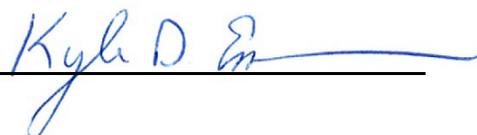

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in § 312.10 of Title 40 of the Code of Federal Regulations, Part 312, (40 CFR 312). I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Executive Summary

1.0 EXECUTIVE SUMMARY

Stantec Consulting Services Inc. (Stantec) has completed a Phase I Environmental Site Assessment (ESA) report on the 16-Acres of vacant land located at the Intersection of Gravenstein Highway and Redwood Drive, City of Cotati, County of Sonoma, California (the "Subject Property"), on behalf of City Ventures (the "Client"). The work was performed according to the Master Services Agreement between Stantec and the Client (the "MSA"). City Ventures (the "User") has been designated as the User of this report. The intended use of this Phase I ESA is for due diligence in support of acquisition (or lease) for development as multi-family housing.

The Phase I ESA was conducted in conformance with the requirements of ASTM International (ASTM) Designation E1527-21 and E1527-13, and All Appropriate Inquiry (AAI) as defined by the United States Environmental Protection Agency (EPA) in Title 40 of the Code of Federal Regulations, Part 312 (40 CFR 312), except as may have been modified by the scope of work, and terms and conditions, requested by the Client. Any exceptions to, or deletions from, the ASTM or AAI practice are described in Section 2.3.

The Subject Property consists of approximately 16 acres of vacant land with a large soil stockpile in the northern portion. The Subject Property is owned by Cotati Commons Marketplace, LLC. Adjoining properties, as well as the nearby area, uses include retail, restaurants, commercial and residential. A Subject Property Location Map is provided as Figure 1. A Subject Property Vicinity Map illustrating the main features of the Subject Property and vicinity is provided as Figure 2. Photographs taken during the site reconnaissance visit are provided in Appendix A.

According to a previous report provided to Stantec and prepared by Kleinfelder, fill soil from a pipeline construction along Stony Point Road was stockpiled on the subject Property. It was also reported that some of this stockpiled soil was used as subgrade fill for a system of paved driveways and parking lots on the property adjacent to the north of the Subject Property. This report stated that prior to using the soil from this stockpile, four composite soil samples were collected from the stockpile and were analyzed for total petroleum hydrocarbons (TPH) as gasoline, diesel, and motor oil, volatile organic compounds (VOCs), and total lead. TPH compounds and VOCs were not detected above laboratory reporting limits. Concentrations of total lead ranged from 5.3 to 17 milligrams per kilogram (mg/kg) which are below the California hazardous waste level of 1,000 mg/kg, below unrestricted use levels of 80 mg/kg, and within expected background concentrations.

Based on the analytical results, Kleinfelder stated the fill has not been affected by analyzed contaminants from its former location on the shoulder of a road, and there were no restrictions for use of this material. The Property Owner stated that the stockpile on the northern portion of the Subject Property consists of the remaining fill material not used on the adjoining property to the north. Based on the analytical data provided, the stockpile of soil remaining on the Subject Property does not represent a recognized environmental condition (REC) and Stantec recommends no additional investigation. However, off-site disposal of this material is required and that disposal may require additional testing for waste profiling purposes.

**INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA
94931**

Executive Summary

We have performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-21 and E1527-13 of 16-Acres of vacant land located at Intersection of Gravenstein Highway and Redwood Drive, City of Cotati, County of Sonoma, California, or the "Subject Property". Any exceptions to, or deletions from, this practice are described in Section 2.3 of this report. This assessment has revealed no recognized environmental conditions (RECs), Controlled RECs (CRECs), Historical RECs (HRECs), or significant data gaps in connection with the Subject Property. No further investigation is warranted.

The preceding summary is intended for informational purposes only. Reading of the full body of this report is recommended.

Introduction

2.0 INTRODUCTION

The objective of this Phase I ESA was to perform All Appropriate Inquiry (AAI) into the past ownership and uses of the Subject Property consistent with good commercial or customary practice as outlined by ASTM International (ASTM) in “Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process”, Designation E1527-21 and E1527-13. “All Appropriate Inquiry” (AAI) is the process for evaluating a property’s environmental conditions for the purpose of qualifying for landowner liability protections under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), following final rule of Part 312 of Title 40, Code of Federal Regulations (40 CFR Part 312). The purpose of this Phase I ESA was to identify, to the extent feasible, adverse environmental conditions including recognized environmental conditions (“RECs”) of the Subject Property.

The ASTM E1527-21 standard indicates that the goal of the Phase I ESA is to identify RECs, including historical recognized environmental conditions (“HRECs”), and controlled recognized environmental conditions (“CRECs”) that may exist at a property. The term “recognized environmental conditions” means the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property:

- 1) the presence of *hazardous substances* or *petroleum products* in, on, or at the *Subject Property* due to a *release* to the *environment*;
- 2) the likely presence of *hazardous substances* or *petroleum products* in, on, or at the *Subject Property* due to a *release* or *likely release* to the *environment*; or
- 3) the presence of *hazardous substances* or *petroleum products* in, on, or at the *Subject Property* under conditions that pose a *material threat* of a future *release* to the *environment*.

ASTM defines a “HREC” as a REC that has occurred in connection with the Subject Property but has been addressed to the satisfaction of the applicable regulatory authority and meets current unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (e.g., property use restrictions, activity and use limitations, institutional controls, or engineering controls). A HREC is not considered a REC.

ASTM defines a “CREC” as a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g., as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), but with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g., property use restrictions, activity and use limitations, institutional controls, or engineering controls).

As defined by ASTM, RECs can include hazardous substances or petroleum products present under conditions in compliance with laws if that presence represents a material threat of future release. The release of hazardous substances or petroleum products is, however, not a REC if that presence is a *de minimis* condition. *De minimis* conditions are minor releases that generally do not present a material risk to human health and would not likely be subject to enforcement action if brought to the attention of governmental agencies. ASTM also considers the potential for a business environmental risk (BER),

INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA 94931

Introduction

defined as a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of the Subject Property, not necessarily limited to those environmental issues required to be investigated by the ASTM standard. Consideration of BERs may involve addressing one or more ASTM non-scope considerations.

This Phase I ESA was conducted in accordance with the MSA. The scope of work conducted during this Phase I ESA consisted of a visual reconnaissance of the Subject Property, interviews with key individuals, and review of reasonably ascertainable documents. The scope of work did not include an assessment for environmental regulatory compliance of any facility ever operated at the Subject Property (past or present), or sampling and analyzing of environmental media. Stantec was not contracted to perform an independent evaluation of the purchase or lease price of the Subject Property and its relationship to current fair market value. The conclusions presented in this Phase I ESA report are professional opinions based on data described herein. The opinions are subject to the limitations described in Section 2.3.

ASTM E1527-21 notes that the availability of record information varies from source to source. The User or Environmental Professional (EP) is not obligated to identify, obtain, or review every possible source that might exist with respect to a property. Instead, ASTM identifies record information that is reasonably ascertainable from standard sources. "Reasonably ascertainable" means:

1. Information that is publicly available;
2. Information that is obtainable from its source within reasonable time and cost constraints; and
3. Information that is practicably reviewable.

2.1 SUBJECT PROPERTY DESCRIPTION

The Subject Property consists of approximately 16 acres of vacant land with a large soil stockpile in the northern portion. The Subject Property is owned by Cotati Commons Marketplace, LLC. Adjoining properties, as well as the nearby area, uses include retail, restaurants, commercial and residential. A Subject Property Location Map is provided as Figure 1. A Subject Property Vicinity Map illustrating the main features of the Subject Property and vicinity is provided as Figure 2. Photographs taken during the site reconnaissance visit are provided in Appendix A.

The Subject Property consists of Assessor Parcel Numbers (APNs) 046-286-017; 046-286-018; 0426-286-019; and 046-286-020.

2.2 SPECIAL TERMS, CONDITIONS, AND ADDITIONAL ASSUMPTIONS

There were no special terms, conditions, or additional assumptions associated with this Phase I ESA.

Introduction

2.3 EXCEPTIONS AND LIMITING CONDITIONS

This report documents work that was performed in accordance with generally accepted professional standards at the time and location in which the services were provided and given the schedule and budget constraints established by the client. No other representations, warranties, or guarantees are made concerning the accuracy or completeness of the data or conclusions contained within this report, including no assurance that this work has uncovered all potential and actual liabilities and conditions associated with the Subject Property.

This report provides an evaluation of selected environmental conditions associated with the Subject Property that was assessed at the time the work was conducted and is based on information obtained by and/or provided to Stantec at that time. There are no assurances regarding the accuracy and completeness of this information received from others.

Conclusions made within this report consist of Stantec's professional opinion as of the time of the writing of this report and are based solely on the scope of work described in the report, the limited data available, and the results of the work. They are not a certification of the Subject Property's environmental condition.

The client did not provide or contract Stantec to provide recorded title records or search results for environmental liens or activity and use limitations encumbering the property or in connection with the Subject Property. Stantec did not obtain historical records that document the property history in 5-year intervals and this resulted in data gaps. Although this represents data gaps, these data gaps are not considered to impact the EPs ability to identify RECs unless stated as such. Based on the information obtained during the course of this ESA and general knowledge of development at and near the Subject Property, the absence of this information did not affect the ability of the EPs to identify RECs, HRECs, CRECs, or *de minimis* conditions.

This report has been prepared for the exclusive use of the client identified herein and any use of or reliance on this report by any third party is prohibited, except as may be consented to in writing by Stantec or as required by law. The provision of any such consent is at Stantec's sole and unfettered discretion and will only be authorized pursuant to the conditions of Stantec's standard form reliance letter. Stantec assumes no responsibility for losses, damages, liabilities, or claims, howsoever arising, from third party use of this report.

Project Specific limiting conditions are provided in Section 2.2.

The conclusions are based on the conditions encountered at the Subject Property by Stantec at the time the work was conducted.

As the purpose of this report is to identify Subject Property conditions which may pose an environmental risk; the identification of non-environmental risks to structures or people on the Subject Property is beyond the scope of this assessment.

INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA 94931

Introduction

The findings, observations, and conclusions expressed by Stantec in this report are not an opinion concerning the compliance of any past or present owner or operator of the Subject Property which is the subject of this report with any Federal, state, provincial or local law or regulation.

This report presents professional opinions and findings of a scientific and technical nature. It does not and shall not be construed to offer a legal opinion or representations as to the requirements of, nor compliance with, environmental laws, rules, regulations, or policies of Federal, state, provincial or local governmental agencies. It is recommended that issues raised by the report should be reviewed for the client by its legal counsel.

Stantec specifically disclaims any responsibility to update the conclusions in this report if new or different information later becomes available or if the conditions or activities on the property subsequently change.

2.4 PERSONNEL QUALIFICATIONS

This Phase I ESA was conducted by, or under the supervision of, an individual that meets the ASTM definition of an EP. The credentials of the EP and other key Stantec personnel involved in conducting this Phase I ESA are provided in Appendix B.

User-Provided Information

3.0 USER-PROVIDED INFORMATION

ASTM E1527-13 and ASTM E1527-21 describe responsibilities of the User to complete certain tasks in connection with the performance of “All Appropriate Inquiries” into the Subject Property. The ASTM standard requires that the EP request information from the User on the results of those tasks because that information can assist in the identification of RECs, CRECs, HRECs, or *de minimis* conditions in connection with the Subject Property. Towards that end, Stantec requested that the User provide the following documents and information:

Description of Information	Provided (Yes / No)	Description and/or Key Findings
User Questionnaire and/or Interview	Yes	The user is not aware of any environmental cleanup liens and/or activity and land use limitations associated with the Subject Property. The user has no specialized knowledge or experience with the Subject Property and is believes the purchase price being paid reflects fair market value. The user is not aware of any past use and/or chemical, hazardous substances, or petroleum products past or present on the Subject Property.
Environmental Liens or Activity and Use Limitations (AUL)	N/A	No environmental liens and/or activity and use limitations were identified in the Preliminary Title Report prepared by First American Title dated July 13, 2021. Additionally, no evidence of environmental liens and/or activity and uses limitations were identified in the EDR report.
Previous Environmental Permits or Reports Provided by User	Yes	Provided historical reports are summarized in Section 4.4.6.
Purpose of the Phase I ESA	Yes	The intended use of the Phase I is for acquisition, lease for redevelopment as residential.

Stantec forwarded the ASTM recommended User Questionnaire to Mr. Willie Pyle, Development Associate with City Ventures. The completed User Questionnaire returned to us by Mr. Pyle and dated February 10, 2022, is included in Appendix C.

Records Review

4.0 RECORDS REVIEW

The objective of consulting historical sources of information is to develop the history of the Subject Property and surrounding area and evaluate if past uses may have resulted in RECs. Physical setting records are evaluated to determine if the physical setting may have contributed to adverse environmental conditions in connection with the Subject Property. During the review of historical records, Stantec attempted to identify uses of the Subject Property from the present to the first developed use of the Subject Property. Stantec's research included the reasonably ascertainable and useful records described in this section.

4.1 PHYSICAL SETTING

A summary of the physical setting of the Subject Property is provided in the table below with additional details in the following subsections

Topography:	There is approximately 102 feet of topographic relief at the Subject Property. The Subject Property is relatively flat with a general topographic gradient to the north (EDR, 2022).
Soil/Bedrock Data:	The subsurface in the vicinity of the Subject Property consists primarily of clay and silty clay with interbedded layers of sand and gravel to the total depth explored of approximately 123 feet below ground surface (bgs).
Estimated Depth to Groundwater/ Estimated Direction of Gradient:	Groundwater in the vicinity of the Subject Property ranges from 83.25 to 98.87 feet above mean sea level with a groundwater flow direction to the northeast.
NOTE: Site-specific groundwater flow direction and depth can only be determined by conducting site-specific testing, which Stantec has not conducted.	

4.1.1 Subject Property Topography and Surface Water Flow

There is approximately 102 feet of topographic relief at the Subject Property. The Subject Property is relatively flat with a general topographic gradient to the north (EDR, 2022). Based on the topography, surface water on the Subject Property infiltrates the ground surface.

4.1.2 Regional and Subject Property Geology

The Subject Property is located in the area covered by the approximately 100 feet of Quaternary age alluvial fan deposits that consists of poorly sorted coarse sand and gravel, and moderately sorted fine sand, silt, and clay (DWR, 2004).

According to the *Site Conceptual Model and Closure Request Report* for the Former ARCO Service Station located at 8505 Gravenstein Highway dated March 5, 2013, the subsurface in the vicinity of the

INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA 94931

Records Review

Subject Property consists primarily of clay and silty clay with interbedded layers of sand and gravel to the total depth explored of approximately 123 feet below ground surface (bgs).

4.1.3 Regional and Subject Property Hydrogeology

The Subject Property is located the Santa Rosa Valley, Santa Rosa Plain Sub-basin (1-055.01) which is bounded on the northwest by the Russian River plain approximately one mile south of the City of Healdsburg and the Healdsburg sub basin; mountains of the Mendocino Range flank the remaining western boundaries; a series of low hills on the south; and on the east by the Sonoma Mountains south of Santa Rosa and the Mayacmas Mountains north of Santa Rosa (DWR, 2004).

According to the *Site Conceptual Model and Closure Request Report* for the Former ARCO Service Station located at 8505 Gravenstein Highway dated March 5, 2013, groundwater in the vicinity of the Subject Property ranges from 83.25 to 98.87 feet above mean sea level with a groundwater flow direction to the northeast.

4.2 FEDERAL, STATE AND TRIBAL ENVIRONMENTAL RECORDS

A regulatory agency database search report was obtained from Environmental Data Resources, Inc. (EDR), a third-party environmental database search firm. A complete copy of the database search report, including the date the report was prepared, the date the information was last updated, and the definition of databases searched, is provided in Appendix D.

Stantec evaluated the information listed within the database relative to potential impact to the Subject Property, assessing the potential for impacts based in part on the physical setting. As part of this process, inferences have been made regarding the likely groundwater flow direction at or near the Subject Property. As described in 4.1.3, the inferred shallow groundwater flow direction is likely to be in the northeast. Observations about the Subject Property and adjoining properties made during the Subject Property reconnaissance are provided in more detail in Section 5.

4.2.1 Listings for Subject Property

The Subject Property was not identified in the environmental database report; however, the adjoining property to the north (Lowes) shared the Subject Property address and was identified in the environmental database report. These listings are described in Section 4.2.2 below.

4.2.2 Listings for Adjoining and Nearby Sites with Potential to Impact Subject Property

Stantec assessed data presented in the environmental agency database search report to evaluate the potential for conditions on adjoining and nearby sites to pose a REC, CREC, or HREC for the Subject Property. The evaluation included an opinion of the potential for contamination by hazardous substances or petroleum products to migrate to the Subject Property from an adjoining or nearby site, including by vapor migration or encroachment (i.e., potential for a vapor encroachment condition [VEC]).

INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA 94931

Records Review

Based on this evaluation, the following individual facilities were identified as the most likely potential sources of impact to the Subject Property. The basis for why each of the following listed databases creates a REC for the Subject Property is also provided.

Listed Facility Name/Address	Database Listing(s)	Distance/Direction from Subject Property
Lowe's – Cotati #1901 7921 Redwood Drive Cotati, CA 94931	CUPA Listings; HAZNET; CERS; HWTS; CERS HAZ WASTE; CERS TANKS; ECHO; FINDS; HWTS; RCRA-SQG; AST; EMI	Adjoining to the north
The facility was listed as a small quantity generator and disposes of hazardous materials off-site with no reported violations. The facility has aboveground petroleum storage. A minor administration violation was issued for improper labeling; however, the violation was corrected and there was no indication of a release. Given there are no underground features or any indication of a release, the facility is not considered an environmental concern and no further assessment is warranted.		
Keun Won Rho 8492 Gravenstein Highway Cotati, CA 94931	EDR Hist Cleaner	Approximately 200 feet to the south-southwest
The distance stated in the EDR report appears to be an error and the facility is located approximately 200 feet to the south beyond Gravenstein Highway. The facility is listed as a dry-cleaning plant in 2007. Given the distance and lack of any reported releases, the facility is not considered an environmental concern and no further assessment is warranted.		
Rays Arco Service / Leatherwood Inc. / Save On Gas Inc DBA Cotati Gas Mart / ARCO Facility #1341 / AMP/PM Mini GKT / Silladda Valero 8505 Gravenstein Highway Cotati, CA 94928	EDR Hist Auto; HIST UST; RCRA NonGen/NLR; LUST; CERS HAZ WASTE; CERS TANKS; CHMIRS; Cortese; CUPA Listings; HAZNET; HIST CORTESE; CERS; HWTS; UST; SWEEPS UST; CA FID UST; EMI; CERS	Approximately 173 feet to the southeast
The facility was listed as various gasoline service stations between 1969 and 2014 and received closure on March 11, 2014, from Sonoma County. According to the <i>Site Conceptual Model and Closure Request Report</i> prepared by Arcadis U.S. Inc. (Arcadis) dated March 5, 2013, various environmental site assessments began in 1985 after the discovery of petroleum hydrocarbons in soil during the excavation and removal of three underground storage tanks (USTs) in the western portion of the facility. Previous remedial actions conducted at the facility included soil vapor extraction (SVE) and air sparging (AS) between September 2006 to April 2010. Groundwater monitoring started in September 1987. According to the petroleum isoconcentration contour maps for the fourth quarter 2011 to fourth quarter 2012, the impacted groundwater is focused on the southwestern portion of the facility and does not extend beyond the facility boundaries. Given the USTs are located over 300 feet from the Subject Property, the facility is not considered an environmental concern and no further assessment is warranted.		
Fairfax French Cleaners / Facility 49-000-005920 / Paragon Screen Printing 7950 Redwood Drive No 6	RCRA-SQG; UST; CUPA Listings; RCRA NonGen/NLR;	Approximately 250 feet to the east

INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA 94931

Records Review

Listed Facility Name/Address	Database Listing(s)	Distance/Direction from Subject Property
Cotati, CA 94931		
The facility is listed as a dry-cleaning plant between 2001 and 2003 and small quantity generator that disposed of tetrachloroethene with no reported violations. Given the facility is not adjoining and lack of any reported releases, the facility is not considered an environmental concern and no further assessment is warranted.		
United #5426 / Tosco Northwest Co 02810 / Cotati Mobile / BP Service Station / Kayo Oil – 76 Station / United #5426 8510 Gravenstein Highway Cotati, CA 94931	RCRA NonGen/NLR; UST; RCRA-SQG; FINDS; ECHO; HAZNET; HWTS; CA FID UST; SWEEPS UST; HIST UST; UST; LUST; CERS HAZ WASTE; CERS TANKS; Cortese; CUPA Listings; HAZNET; HIST CORTESE; CERS; HWTS	Approximately 436 feet to the east-southeast
The facility is listed as various gasoline service station between 1969 and 1992 and received closure on April 28, 2020, from Sonoma County. According to the Remedial Action Completion Certificate Case Closure Summary, five USTs were removed on October 11, 1993, and 400 cubic yards of soil was removed. Additional over excavation of 500 cubic yards was performed during the installation of the USTs on October 12, 1994. Dual Phase Extraction was conducted between 2002 and 2010. According to the Semi-Annual Groundwater Monitoring Status Report Second Quarter 2018 prepared by ATC Group Services, Inc., the impact does not extend beyond the facility boundaries. Given the facility is not adjoining and regulatory status, the facility is not considered an environmental concern and no further assessment is warranted.		

The remaining listings in the database search report, including listings of Orphan Sites, provided in Appendix D do not constitute a potential REC for the Subject Property.

4.3 LOCAL/REGIONAL ENVIRONMENTAL RECORDS

Stantec checked the following sources to obtain information pertaining to Subject Property use and/or indications of RECs in connection with the Subject Property:

4.3.1 Sonoma County Environmental Health Department

Agency Contact Information	Name	Finding
Sonoma County Environmental Health and Safety 625 5 th Street Santa Rosa, California 95404 Online database: http://sonomacounty.ca.gov/Health/Environmental-Health/Public-Records-Requests/ Date Accessed: February 17, 2022		No records for the Property address were found on the Sonoma County Environmental Health and Safety online database.

4.3.2 Rancho Adobe Fire District

Agency Name, Contact Information	Findings
Rancho Adobe Fire District 11000 Main Street Penngrove, CA 94951 Phone: 707-795-6011 Ext 206 Email: ataylor@rafd.org	According to an email from Andy Taylor, Fire Marshal with Rancho Adobe Fire District dated February 14, 2022, the Rancho Adobe Fire District does not have any records for the Property address or adjoining properties and referred to the Sonoma County CUPA program.

4.3.3 City of Cotati Building Department

Agency Name, Contact Information	Findings
City of Cotati 201 W Sierra Avenue Cotati, CA 94931 Phone: 707-665-3636 Date Requested: February 11, 2022	On February 11, 2022, Stantec requested available records for the Property and adjoining properties from the City of Cotati. At the time of the preparation of this report no response has been received. Given the historical documents available for the Subject Property the lack of a response is not considered a significant data gap and is unlikely to impact the findings of this report.

4.3.4 California Geologic Energy Management Division (CalGEM)

Agency Name, Contact Information	Findings
California Geologic Energy Management Division (CalGEM) 5816 Corporate Avenue, Suite 200 Cypress, CA 90630 Online database: https://maps.conservation.ca.gov/doggr/wellfinder Date Accessed: February 11, 2022	Stantec searched for oil wells on the California Geologic Energy Management Division (CalGEM), formerly Division of Oil, Gas, and Geothermal Resources (DOGGR) online database. No oil wells are located within the Subject Property boundaries. One plugged dry hole is located approximately 0.75 miles to the northeast of the Property (API 0409700046) operated by Santa Rosa Expl. Co. Due to the distance, this plugged core hole is not considered a REC and no further investigation is recommended.

4.3.5 Department of Toxic Substances Control (DTSC)

Agency Name, Contact Information	Findings
Department of Toxic Substance Control Online database: https://www.envirostor.dtsc.ca.gov/public/ Date Accessed: February 11, 2022	No records were available for the Property address or adjoining properties on the DTSC Envirostor website.

Records Review

4.3.6 California State Water Resources Control Board

Agency Name, Contact Information	Findings
California State Water Resources Control (SWRCB) North Coast Region 5550 Skyline Boulevard, Suite A Santa Rosa, CA 95403 Online database: https://geotracker.waterboards.ca.gov Date Accessed: February 11, 2022	No records were available for the Property on the SWRCB Geotracker website. Records for the nearby properties are discussed in Section 4.2.2.

4.4 HISTORICAL RECORDS REVIEW

4.4.1 Land Title Records/Deeds

No environmental liens and/or activity and use limitations were identified in the Preliminary Title Report prepared by First American Title dated July 13, 2021. A copy of the title report is provided in Appendix C. No other land title records, deeds, environmental liens, and activity and use limitation documentation were provided by the User, and public records were not searched by Stantec.

4.4.2 Aerial Photographs

Stantec reviewed historical aerial photographs provided by EDR. The general type of activity on a property and land use changes can often be discerned from the type and layout of structures visible in the photographs. However, specific elements of a facility's operation usually cannot be discerned from aerial photographs alone. The following table summarizes Stantec's observations of the reviewed historical aerial photographs.

Year	Scale	Observations of Subject Property and Adjoining/Nearby Properties
1942 1952	1=500'	The Subject Property and adjoining land appear to be vacant land or utilized for cattle grazing with no structures present. Gravenstein Highway appears adjacent to the south.
1968 1971 1973	1=500'	The Subject Property and adjoining land remain undeveloped or utilized for cattle grazing. A roadway appears to the southeast beyond which appears to be a gas station. Commercial development appears to the north and east along the highway.
1982	1=500'	The Subject Property and majority of the adjoining land remain undeveloped or utilized for cattle grazing. A small commercial/retail building appears adjacent to the south-southeast.
1993	1=500'	The Subject Property and majority of the adjoining land remain undeveloped or utilized for cattle grazing. Additional commercial development appears to east and the south-southeast beyond Gravenstein Highway.

**INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA
94931**

Records Review

Year	Scale	Observations of Subject Property and Adjoining/Nearby Properties
2006 2009 2012 2016	1=500'	The Subject Property remains vacant land. A large commercial structure appears adjacent to the north. Residential structures appear to the northwest.

Name of aerial photograph source: EDR, 2022

No RECs were noted during the review of the historical aerial photographs.

4.4.3 City Directories

Stantec retained a third party to research available city directories for the Subject Property and adjoining and nearby properties, in approximately five-year intervals. There is no address associated with the Subject Property. The listings for the surrounding area on Gravenstein Highway and Old Redwood Highway consists primarily of retail, veterinary services, and restaurants. A gasoline station and auto center were identified at 8510 Gravenstein Highway between 2017 and 1992, which is located approximately 436 feet to the east-southeast. Fairfax French Cleaners was identified at 7950 Redwood Drive in 2000, which is located approximately 250 feet to the east. The gas station and French Cleaners are discussed in Section 4.2.2. No RECs were noted during the review of the City Directories.

4.4.4 Historical Fire Insurance Maps

Fire insurance maps were developed for use by insurance companies to depict facilities, properties, and their uses for many locations throughout the United States. These maps provide information on the history of prior land use and are useful in assessing whether there may be potential environmental contamination on or near the Subject Property. These maps, which have been periodically updated since the late 19th century, often provide valuable insight into historical Subject Property and adjoining and nearby property uses.

Stantec requested fire insurance maps from EDR; however, no coverage exists for the Subject Property. The Sanborn® Map Search Report indicating “no coverage” is presented in Appendix E.

4.4.5 Historical Topographic Maps

Stantec reviewed historical USGS 7.5-minute Topographic Maps of the Cotati, California Quadrangle (scale 1:24,000) to help identify past Subject Property and adjoining and nearby property usage and areas of potential environmental concern. Copies of the historical maps are provided in Appendix E.

The following table summarizes the maps reviewed and our observations.

**INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA
94931**

Records Review

Year	Scale	Observations of Subject Property and Adjoining/Nearby Properties
1916 1944	1=62,500	No site details are depicted on the Subject Property or surrounding are. A roadway appears to the south. The city of Cotati is located to the southeast.
1954 1968 1973 1980	1=24,000	No site details are depicted on the Subject Property or surrounding are. The roadway adjacent to the south is now identified as Gravenstein highway. Small structures appear to the north of the Subject Property. The 101 Highway is located to the east.
2012 2015 2018	1=24,000	No details are depicted on the map. Roadways appear in their current configurations.

Name of maps and source: EDR, 2022

No RECs were noted during the review of the topographic maps.

4.4.6 Other Historical Sources

The User provided the following previous reports for the Subject Property:

Phase I Environmental Site Assessment Update, APNs 144-050-01, 02, 03 and APNs 46-286-03 & 07, Guerneville Highway, Cotati, California, prepared by Edd Clark & Associates, Inc., dated October 25, 1999

Edd Clark & Associates', Inc. (EC&A) provided an update of the 1994 Phase I ESA of the 30-acre property at APNs 144-50-01, -02, -03 and APNs 46-286-03 and -07 prepared by Brunsing Associates, Inc. The 1994 ESA and EC&A update found no obvious evidence of impact to the Subject Property from hazardous materials.

Phase I Environmental Site Assessment, Lowes of Cotati, Cotati, California, prepared by Kleinfelder, Inc., dated November 21, 2003

Kleinfelder, Inc. (Kleinfelder) prepared a Phase I ESA for the property located adjacent to the north of the current Subject Property. This property consisted of approximately 16 acres bounded to the south by Highway 116 (Gravenstein Highway), to the north by Helman Lane, to the east by Redwood Drive, and to the west by vacant and residential property. Wetlands and the presence of an endangered plant (Sebastopol Meadowfoam) were known to exist onsite, and the presence of a threatened salamander (California Tiger Salamander) is suspected. Approved mitigation plans for the wetlands and plant were documented in a Draft EIR and documents from the U.S. Army Corps of Engineers, the U.S. Fish and Wildlife Service, and the California Department of Fish and Game.

Kleinfelder documented the presence of imported fill as a REC given it consists of soils with minor amounts of construction debris that include clay pipe and asphalt fragments.

**INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA
94931**

Records Review

Phase I Environmental Site Assessment, Marketplace at Cotati Commons, Redwood Drive at Gravenstein Highway, Cotati, California, prepared by Kleinfelder, Inc., dated February 12, 2007

Kleinfelder stated based on review of historical sources, the Subject Property had been used as a rural residence with possible pastureland from before 1944 to the early 1980s. The Subject Property has been unoccupied since then. No RECs were identified; however, waste petroleum products had been disposed of on the adjacent property at the eastern property line and may have been spilled onto the ground affecting the Subject Property. Kleinfelder noted that the adjacent property owners should be requested to properly dispose of the waste petroleum products at the Property line.

Stantec did not observe any stained soil during the site reconnaissance in February 2002. Should any impacted soil be encountered during grading Stantec should be notified to determine if additional assessment is warranted.

EAQuick Loan Check Environmental Review In General Accordance With A USSBA SOP 50-10 5(G) Records Search With Risk Assessment (RSRA) For The Real Property Identified AS: Marketplace At Cotati Commons (Vacant Land), Redwood Drive At Gravenstein Highway, Cotati, California 94931, prepared by Lender Consulting Services, Inc., dated May 11, 2015

Lender Consulting Services, Inc (LCS) prepared an environmental review to identify RECs for proposed financing of the Subject Property. No physical site inspection was completed during this assessment. LCS concluded that the Subject Property was low risk, and no further action was recommended. LCS noted to confirm with the owner that the previous study recommendations from Kleinfelder have been implemented.

EAQuick Loan Check Environmental Review In General Accordance With A USSBA SOP 50-10 5(K) Records Search With Risk Assessment (RSRA) For The Property Identified As: Vacant Land (Marketplace at Cotati Commons), Redwood Drive at Gravenstein Highway, Parcel Nos. 046-286-017, 046-286-018, 046-286-019 & 046-286-020, Cotati, California 94931, prepared by Lender Consulting Services, Inc., dated November 25, 2019

LCS prepared an environmental review to identify RECs for proposed financing of the Subject Property. No physical site inspection was completed during this assessment. LCS concluded that the Subject Property was low risk, and no further action was recommended. LCS noted to confirm with the owner that the previous study recommendations from Kleinfelder have been implemented.

Proposed Fill Sources for The Marketplace of Cotati Commons Project, 7921 Redwood Drive, Cotati, California, prepared by Kleinfelder, dated December 2005

According to this report prepared by Kleinfelder, fill soil from a pipeline construction along Stony Point Road was delivered to the Property and stockpiled on the subject Property. It was also reported that some of this stockpiled soil was used as subgrade fill for a system of paved driveways and parking lots on the property adjacent to the north of the Subject Property. This report stated that prior to using the soil from this stockpile, four composite soil samples were collected from the stockpile and were analyzed for total petroleum hydrocarbons (TPH) as gasoline, diesel, and motor oil, volatile organic compounds

**INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA
94931**

Records Review

(VOCs), and total lead. TPH compounds and VOCs were not detected. Concentrations of total lead ranged from 5.3 to 17 milligrams per kilogram (mg/kg) which are below the California hazardous waste level of 1,000 mg/kg, below un-restricted use levels of 80 mg/kg, and within expected background concentrations.

Based on the analytical results, Kleinfelder stated the fill has not been affected by analyzed contaminants from its former location on the shoulder of a road, and there were no restrictions for use of this material. The Property Owner stated that the stockpile on the northern portion of the Subject Property consists of the remaining fill material not used on the adjoining property to the north.

Based on the analytical data provided, the stockpile of soil remaining on the Subject Property does not represent a recognized environmental condition (REC); however, off-site disposal of this material is required, that disposal may require additional testing for waste profiling purposes.

Site Reconnaissance

5.0 SITE RECONNAISSANCE

A visit to the Property and its vicinity was conducted by Mr. Eric Booker on February 11, 2022. Stantec made observations of the Property, safely accessible building interior areas, and site vicinity during the visit. **Figure 2** provides information about the Property and adjoining properties, and photographs taken during the Property visit are included in **Appendix A**.

5.1 SITE RECONNAISSANCE METHODOLOGY

The site reconnaissance focused on observation of current conditions and observable indications of past uses and conditions of the Property that may indicate the presence of REC. The reconnaissance of the Property was conducted on foot and Stantec utilized the following methodology to observe the Property:

- Traverse the outer Property boundary.
- Traverse transects across the Property.

There were no weather-related Property access restrictions encountered during the reconnaissance visit.

5.2 GENERAL DESCRIPTION

Property and Area Description:	The Property, located at the intersection of Gravenstein Highway and Redwood Drive in the city of Cotati, California, is an approximately 16-acre irregularly shaped undeveloped parcel of land. The Property is located in a mixed-use area with residential and commercial structures.
Property Operations:	None observed.
Structures, Roads, Other Improvements:	No structures, roads or other improvements were observed on the Property.
Property Size (acres):	Approximately 16 acres.
Estimated % of Property Covered by Buildings and/or Pavement:	None observed.
Observed Current Property Use/Operations:	None observed.
Observed Evidence of Past Property Use(s):	None observed.

**INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA
94931**

Site Reconnaissance

Sewage Disposal Method (and age):	N/A
Potable Water Source:	None observed.
Electric Utility:	N/A

5.3 HAZARDOUS SUBSTANCES AND PETROLEUM PRODUCTS

The following table summarizes Stantec's observations during the Property reconnaissance.

Observations	Description/Location
Hazardous Substances and Petroleum Products as Defined by CERCLA 42 U.S.C. § 9601(14):	None observed.
Drums (≥ 5 gallons):	None observed.
Strong, Pungent, or Noxious Odors:	None observed.
Pools of Liquid:	None observed.
Unidentified Substance Containers:	None observed.
PCB-Containing Equipment:	None observed.
Other Observed Evidence of Hazardous Substances or Petroleum Products:	None observed.

5.4 INTERIOR OBSERVATIONS

No structures were present at the time of Stantec's site reconnaissance.

Observations	Description
Heating/Cooling Method	N/A
Surface Stains or Corrosion	N/A

**INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA
94931**

Site Reconnaissance

Observations	Description
Floor Drains or Sumps	N/A
Other Interior Observations	N/A

5.5 EXTERIOR OBSERVATIONS

Stantec made the following observations during the site reconnaissance of exterior areas of the Property and/or identified the following information during the interview or records review portions of the assessment:

Observations	Description
On-site Pits, Ponds, or Lagoons:	None observed.
Stained Soil or Pavement:	None observed.
Stressed Vegetation:	None observed.
Waste Streams and Waste Collection Areas:	None observed.
Solid Waste Disposal:	No areas indicative of solid waste disposal were observed.
Potential Areas of Fill Placement:	A large soil stockpile was observed near the northern portion of the Subject Property. No odors or stained soil associated with the stockpile were observed.
Wastewater:	No exterior wastewater discharge was observed.
Stormwater:	The Subject Property is relatively flat and stormwater flow was not observed during the site visit. Any stormwater originating on the Property would likely flow towards the storm drains along Gravenstein Highway and Redwood Drive.
Wells:	None observed.
Septic Systems:	No visible evidence of the existence of a septic system was observed.
Other Exterior Observations:	None observed.

5.6 UNDERGROUND STORAGE TANKS/STRUCTURES

Existing USTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface patches), which would indicate the presence of USTs, was discovered during the site reconnaissance.
Former USTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface patches), reports, or other evidence of the former presence of USTs was discovered during this Phase I ESA.

**INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA
94931**

Site Reconnaissance

Other Underground Structures:	None observed.
--------------------------------------	----------------

5.7 ABOVEGROUND STORAGE TANKS

Existing ASTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface stains), which would indicate the presence of ASTs, was discovered during the site reconnaissance.
Former ASTs:	No visible evidence (fill pipes, vent pipes, dispensers, surface stains), reports, or other evidence of the former presence of ASTs was discovered during this Phase I ESA.

5.8 ADJOINING PROPERTIES

5.8.1 Current Uses of Adjoining Properties

As viewed from the Property and/or from public rights-of-way, Stantec made the following observations about use and activities on adjoining properties:

NORTHEAST	Lowes Home Center
NORTHWEST	Residential Development
EAST	Vacant Land
SOUTHEAST	Restaurant
SOUTH	Retail Development

5.8.2 Observed Evidence of Past Uses of Adjoining Properties

Observations of adjoining properties providing indications of past use and activities, if any, are described below.

NORTH	None observed.
SOUTH	None observed.
EAST	None observed.
WEST	None observed.

5.8.3 Pits, Ponds or Lagoons on Adjoining Properties

As viewed from the Property and/or from public rights-of-way, Stantec made the following observations about the presence of pits, ponds, and lagoons on adjoining properties:

**INTERSECTION OF GRAVENSTEIN HIGHWAY AND REDWOOD DRIVE, COTATI, CALIFORNIA
94931**

Site Reconnaissance

NORTH	None observed.
SOUTH	None observed.
EAST	None observed.
WEST	None observed.

5.9 OBSERVED PHYSICAL SETTING

Topography of the Property and Surrounding Area:	The topography of the Property and the surrounding area is relatively flat with a slight slope towards the southeast and the south.
---	---

Interviews

6.0 INTERVIEWS

A completed questionnaire was completed by the Mr. George Akel, authorized representative of the Property Owner. Mr. Akel has been familiar with the Subject Property for over 10 years. Mr. Akel stated the Subject Property consists of remaining parcels of a larger commercial development. Mr. Akel is not aware of any environmental liens or land use restrictions associated with the Subject Property. Mr. Akel is not aware of any RECs, storage tanks, petroleum products, and/or hazardous substances associated with the Subject Property and referred to previous reports for historical information.

Copies of interview documentation are provided in Appendix F.

Evaluation

7.0 EVALUATION

This section provides a summary overview of or Findings, Opinions, and Conclusions.

7.1 FINDINGS AND OPINIONS

Information gathered from interviews, reviews of existing data, and an inspection was evaluated to determine if RECs are present in connection with the Subject Property. Based on this information, Stantec made the following findings and developed the following opinions.

The Subject Property consists of approximately 16 acres of vacant land with a large stockpile in the northern portion. According to a previous report provided to Stantec and prepared by Kleinfelder, reported that fill soil from a pipeline construction along Stony Point Road, was stockpiled on the subject Property. It was also reported that some of this stockpiled soil was used as subgrade fill for a system of paved driveways and parking lots on the property adjacent to the north of the Subject Property. This report stated that prior to using the soil from this stockpile, four composite soil samples were collected from the stockpile and were analyzed for total petroleum hydrocarbons (TPH) as gasoline, diesel, and motor oil, volatile organic compounds (VOCs), and total lead. TPH compounds and VOCs were not detected above laboratory reporting limits. Concentrations of total lead ranged from 5.3 to 17 milligrams per kilogram (mg/kg) which are below the California hazardous waste level of 1,000 mg/kg, below unrestricted use levels of 80 mg/kg, and within expected background concentrations.

Based on the analytical results, Kleinfelder stated the fill has not been affected by analyzed contaminants from its former location on the shoulder of a road, and there were no restrictions for use of this material. The Property Owner stated that the stockpile on the northern portion of the Subject Property consists of the remaining fill material not used on the adjoining property to the north. Based on the analytical data provided, the stockpile of soil remaining on the Subject Property does not represent a recognized environmental condition (REC) and Stantec recommends no additional investigation. ; However, off-site disposal of this material is required, and that disposal may require additional testing for waste profiling purposes.

An environmental records search was performed and identified sites within their respective ASTM E1527-21 search radii of the Subject Property that may represent RECs, CRECs, HRECs, or *de minimis* conditions.

Based on one or more of the following reasons: distance from the Subject Property, position of sites with respect to assumed groundwater flow direction, the type of native soils, and regulatory status, none of the sites identified in the environmental records search report are expected to impact soil or groundwater quality at the Subject Property. The environmental records search identified no RECs, CRECs, HRECs or *de minimis* conditions at or near the Subject Property.

Evaluation

7.2 DATA GAPS

The federal AAI final rule [40 CFR 312.10(a)] and ASTM E1527-21 identify a “data gap” as the lack or inability to obtain information required by the standards and practices of the rule despite good faith efforts by the EP or the User.

Any data gaps resulting from the Phase I ESA described in this report are listed and discussed below.

Gap	Discussion
Deletions or Exceptions from Scope of Work Referenced in Section 1.4:	None
Weather-Related Restrictions to Site Reconnaissance:	None
Facility Access Restrictions to Site Reconnaissance:	None
Other Site Reconnaissance Restrictions:	None
Data Gaps from Environmental Records Review:	None
Data Gaps from Historical Records Review:	None
Data Gaps from Interviews:	None
Other Data Gaps:	Stantec requested available records for the Property and adjoining properties from the City of Cotati. At the time of the preparation of this report, no response has been received. Given the historical documents available for the Subject Property the lack of a response is not considered a significant data gap and is unlikely to impact the findings of this report.

7.3 CONCLUSIONS

We have performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-21 and E1527-13 of 16-Acres of vacant land located at Intersection of Gravenstein Highway and Redwood Drive, City of Cotati, County of Sonoma, California, or the “Subject Property”. Any exceptions to, or deletions from, this practice are described in Section 2.3 of this report. This assessment has revealed no recognized environmental conditions (RECs), Controlled RECs (CRECs), Historical RECs (HRECs) or significant data gaps in connection with the Subject Property. No further investigation is warranted.

Non-Scope Considerations

8.0 NON-SCOPE CONSIDERATIONS

The following ASTM E1527-21 Non-Scope Considerations were performed as part of this Phase I ESA:

8.1 LEAD-BASED PAINT

Concern for lead-based paint (LBP) is primarily related to residential structures. The EPA's Final Rule on Disclosure of Lead-Based Paint in Housing (40 CFR Part 745) defines LBP as paint or other surface coatings that contain lead equal to or in excess of 1.0 milligram per square centimeter or 0.5 percent by weight.

The risk of lead toxicity in LBP varies based upon the condition of the paint and the year of its application. The U.S. Department of Housing and Urban Development (HUD) has identified the following risk factors:

The age of the dwelling as follows: maximum risk is from paint applied before 1950.

There is severe risk from paint applied before 1960.

There is moderate risk from deteriorated paint applied before 1970.

There is slight risk from the paint that is intact but applied before 1977.

The condition of the painted surfaces.

The presence of children and certain types of households in the building.

Previously reported cases of lead poisoning in the building or area.

Given there are no structures present on the Subject Property LBP is not considered an environmental concern.

8.2 ASBESTOS

Asbestos can be found in many applications, including sprayed-on or blanket-type insulation, pipe wraps, mastics, floor and ceiling tiles, wallboard, mortar, roofing materials, and a variety of other materials commonly used in construction. The greatest asbestos-related human health risks are associated with friable asbestos, which is ACM that can be reduced to powder by hand pressure. Friable asbestos can become airborne and inhaled, which has been associated with specific types of respiratory disease. The manufacturing and use of asbestos in most building products was curtailed during the late 1970s.

Stantec makes no warranty as to the possible existence or absence of inaccessible materials or to their evaluation with respect to asbestos content. Samples of suspect ACM should be collected for laboratory analysis of asbestos prior to any renovation or building demolition to be compliant with, EPA National Emission Standard for Hazardous Air Pollutants (NESHAP) regulations.

Given there are no structures present on the Subject Property, ACMs are not considered an environmental concern.

Non-Scope Considerations

8.3 RADON

Radon is a colorless, tasteless radioactive gas with an EPA-specified action level of 4.0 PicoCuries per liter of air (pCi/L) for residential properties. Radon gas has a very short half-life of 3.8 days. The health risk potential of radon is primarily associated with its rate of accumulation within confined areas near or in the ground, such as basements, where vapors can readily transfer to indoor air from the ground through foundation cracks or other pathways. Large, adequately ventilated rooms generally present limited risk for radon exposure. The radon concentrations in buildings and homes depend on many factors, including soil types, temperature, barometric pressure, and building construction (EPA, 1993).

Stantec reviewed regional data published by the EPA on average indoor radon concentrations in the vicinity of the Subject Property (<http://www.epa.gov/radon/zonemap.html>).

EPA Radon Zones (w/Average Measured Indoor Radon concentrations)		
Zone 1 – High (>4.0 pCi/L)	Zone 2 – Moderate (2 to 4 pCi/L)	Zone 3 – Low (<2 pCi/L)
		X
Normally-occupied sub grade areas present? (i.e., basement apartments, offices, stores, etc.)		
None observed		

The Subject Property is located in Zone 3 and is considered to have low potential for radon. None of the seven tests performed in Zipcode 94931 were above 4 pCi/L (Zipcode for the Subject Property). To determine Subject Property-specific radon levels, a radon survey would have to be conducted. However, because the Subject Property is not residential and there are no occupied subgrade areas, further investigation of indoor radon issues is not warranted.

8.4 FLOOD ZONES

According to the Physical Setting summary portion of the EDR report, the Subject Property is located within a 0.2% Annual Chance Flood Hazard zone. The nearest Surface Water is Copeland Creek, located approximately 1,400 feet to the north of the Subject Property.

Appendix B STANTEC RESUMES

Alicia Jansen CAC, LRCIA

Senior Scientist
21 years of experience

Alicia is a Senior Scientist with over twenty years of experience in Phase I and II Environmental Assessments, with strong emphasis in water quality and environmental research. Alicia has managed the preparation of environmental documents, training programs, and environmental compliance during large scale environmental monitoring projects. Alicia's environmental consulting experience includes performing asbestos and lead-based paint surveys, oversight of contractors during asbestos abatement, hazardous materials surveys, and Phase I Environmental Site Assessments (ESAs) in accordance with the practices identified in the American Society for Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, ASTM Designation E 1527-21 and the Standard Practice for Environmental Site Assessments for Forestland or Rural Property, ASTM Designation E 2247-16.

PROJECT EXPERIENCE

HEALTH, SAFETY & INDUSTRIAL HYGIENE

Cochise County, Asbestos, Lead-Based Paint, and Hazardous Materials Survey | Arizona | Field Lead and Certified Asbestos Consultant

Alicia conducted with site inspections for asbestos, lead-based paint, and hazardous materials at multiple vacant structures including schools, multi-tenant apartment

buildings, and commercial structures. The scope of work involved sample collection for asbestos and lead-based paint in addition to the quantification of universal wastes (PCBs, mercury containing equipment, refrigerants, etc.) that would require special handling and disposal. She assisted with the preparation of reports summarizing findings. Role: Field Lead | Dates involved: 2020-2022

Confidential Health Care Company, Asbestos, Lead-Based Paint, and Hazardous Materials Survey | Northern California | Staff

Alicia assisted with site inspections for asbestos, lead-based paint, and hazardous materials at multiple occupied hospitals and office spaces. The scope of work involved sample collection for asbestos and lead-based paint in addition to the quantification of universal wastes (PCBs, mercury containing equipment, refrigerants, etc.) that would require special handling and disposal. She assisted with the preparation of reports summarizing findings. Role: Field Lead | Dates involved: 2013-2020

State of California General Services, Asbestos, Lead-Based Paint, and Hazardous Materials Survey | Northern California | 2009 | Technical Support

Alicia assisted with site inspections for asbestos, lead-based paint, and hazardous materials at multiple communication towers in remote areas. The scope of work involved sample collection for asbestos and lead-based paint in addition to the quantification of universal wastes (PCBs, mercury containing equipment, refrigerants, etc.) that would require special handling and disposal. She assisted with the preparation of reports summarizing findings. Role: Technical Support | Cost: Unknown | Dates involved: 10/2009-10/2009

Indoor Air Quality Assessments* | San Jose, California | 2002-2005 | Staff

Alicia performed site inspections, interviews, and collected air samples to be analyzed for various air pollutants and molds including formaldehyde, penicillium, aspergillus, cladosporium, and stachybotry. She prepared reports summarizing findings and made recommendations.

Veteran's Administration of Puget Sound, Asbestos and Lead-Based Paint Survey | Seattle, Washington | 2009 | Project Scientist

Alicia served as the Project Scientist responsible for hazardous building material assessments, specifically asbestos and lead-based paint. These services were required as part of the pre-design tasks for this project. Over 300 samples were collected over the span of four days culminating in a final hazardous building materials report to be incorporated into the facility design as well as demolition activities once the construction phase of the

* denotes projects completed with other firms

project commences.

Interim Remedial Action, Indoor Air Sampling, and Sub-Slab Soil Gas Sampling | Sunnyvale, California | 2004–2014 | Task Manager and Field Support

Alicia conducted an indoor air sampling survey using air sampling pumps, dosimeter badges, and flame ionization detector (FID) during a sump excavation. She performs semi-annual sub-slab soil vapor sampling and indoor air quality surveys using summa canisters. She assists with the preparation and submittal of reports summarizing the findings and provides recommendations to the local regulatory agency. Role: Indoor Air Sampling Survey | Cost: Unknown | Dates involved: 09/2004-09/2014

Lead Dust Assessment and Abatement Oversight | Fremont, California | 2009 | Technical Support

Alicia assisted with the evaluation of lead dust in an industrial facility. A total of 307 dust wipe samples were collected in order to evaluate the potential presence of lead dust throughout the two-story, 500,000 square foot manufacturing building. Role: Technical Support | Cost: Unknown | Dates involved: 01/2009-03/2009

Former Tesoro Coke Facility, Asbestos, Lead-Based Paint Survey | Pittsburg, California | Technical Support

Alicia assisted with an asbestos and lead paint survey of 20 structures at the facility ultimately scheduled for demolition. More than 200 samples were collected over the span of two days. She prepared a report for demolition while also providing the information needed for worker safety during demolition activities at the facility. Role: Technical Support | Cost: Unknown | Dates involved: 04/2009-04/2009

State of California General Services, Asbestos and Lead-Based Paint Survey | Southern California | 2014-2019 | Certified Asbestos Consultant

Alicia conducted with site inspections for asbestos and lead-based paint at multiple bridges, maintenance stations, and roadways throughout Southern California. The scope of work involved sample collection for asbestos and lead-based paint that would require special handling and disposal. She assisted with the review and approval of reports summarizing findings. Role: Certified Asbestos Consultant | Cost: Unknown | Dates involved: 9/2014-10/2019

Confidential Client, Asbestos and Lead-Based Paint Survey | Multiple Sites, California | Task Manager and Certified Asbestos Consultant

Alicia conducts pre-demolition asbestos and lead paint surveys of structures ultimately scheduled for demolition. She prepared a report for demolition while also providing the information needed for worker safety during demolition activities at the facility. Role: Task Manager and Certified Asbestos Consultant | Dates involved: 2006 - present

PERMITTING, COMPLIANCE, AUDITING

Tesoro Refinery, Initial Study* | Benicia, California | 2005 | Staff

Alicia assisted with the background research and preparation of applicant-prepared initial study for the

upgrade of a refinery.

Transmission Line Upgrade* | San Mateo to San Francisco, California | 2005 | Environmental Research and Compliance Staff

Alicia supported the environmental compliance program for the construction of a 27-mile 230 kV underground and overhead transmission line. She assisted with the preparation and submittal of variance requests, extra work space requests, and daily and weekly reports for submittal to the California Public Utilities Commission. She also conducted research and assisted with training and report preparation.

REMEDIAL INVESTIGATIONS & ASSESSMENTS

California Department of Transportation Portfolio | Multiple Sites, Northern California and Southern California, California | 2008-2019 | Task Lead Manager

Alicia prepared quarterly groundwater monitoring reports, subsurface investigation reports, sensitive receptor surveys, and preferential pathway studies for various California Department of Transportation locations throughout Northern California. She assisted with the utility locating, work plan preparation, field coordination, archived data onto the State Water Resource Control Board's (RWQCB) Geotracker electronic filing system. Alicia currently conducts site inspections for asbestos, lead-based paint, and hazardous materials for bridges, salt barns, and maintenance buildings associated with California Department of Transportation locations throughout Southern California. The scope of work involves sample collection for asbestos and lead-based paint that would require special handling and disposal. She assists with the preparation of reports summarizing findings. Role: Task Lead Manager | Cost: Unknown | Dates involved: 06/2008-02/2019

Soil Gas Sampling and Human Health Risk Assessment | San Jose, California | 2014 | Project Lead

Alicia performed a soil vapor survey in conformance with the DTSC Advisory Active Soil Gas Investigations, using soil vapor sampling devices and a mobile laboratory for onsite chemical analysis. She also assisted with the report preparation summarizing the findings and providing recommendations for further assessment. Role: Task Lead Manager | Cost: Unknown | Dates involved: 2014

Confidential Clients, Phase I Environmental Site Assessments | Multiple Sites, California, Arizona, New Mexico, Texas, Virginia | Task Manager

Alicia performs Phase I Environmental Site Assessments for multiple confidential clients in accordance with the practices identified in the American Society for Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, ASTM Designation E 1527-13; ASTM E 1527-21; and Standard Practice for Environmental Site Assessments for Forestland or Rural Property, ASTM Designation E 2247-16 to achieve compliance with requirements of the "All Appropriate Inquiries" rule required to obtain protection from liability under the federal Comprehensive Environmental Response, Cleanup and Liability Act (CERCLA). Previous sites include large industrial warehouses, multi-tenant

* denotes projects completed with other firms

commercial buildings, large lots of vacant land, and residential properties. She reviews topographic maps, Sanborn Fire Insurance Maps, and files at local regulatory agencies. She interviews present and former property owners and performed site and adjacent property reconnaissance. She prepares reports summarizing the findings and provides recommendations for further assessment if applicable. Role: Task Lead Manager | Cost: \$3,000-8,000 per report. | Dates involved: 2006-present

Goodyear Portfolio | California and Hawaii | 2005–2020 | Project Lead

Alicia performed Phase I Environmental Site Assessments (ESA) and Phase II Site Assessments for various Goodyear Tire & Rubber Company locations throughout California and Hawaii. She assisted with the installation of monitoring wells and exploratory borings; underground storage tank removals; site restoration; product removal with passive recovery system; archived data onto the State Water Resource Control Board's Geotracker electronic filing system; and assisted with the preparation of quarterly groundwater monitoring reports, sensitive receptor surveys, site conceptual models, and subsurface investigation reports. Approximately 250 Sites

- Cost: \$8,000 per site.

Debbie is a staff geologist hired in September of 2018 at the San Bernardino Office. Through her education at Cal Poly Pomona, Debbie has extensive research and writing experience while conducting thesis work. Field experience ranges from field mapping, rock and soil classification to vast experience utilizing geophysical equipment. Since starting at Stantec, Debbie has applied her knowledge towards Phase I and II Environmental Assessment field work and report preparation. Debbie has also overseen soil vapor extraction projects Debbie completed a GIS certification program through the California University Fullerton and is experienced in ArcGIS 10, Adobe Suite, and the Microsoft Office Suite.

Debbie's environmental consulting experience includes performing Phase I Environmental Site Assessments in accordance with the practices identified in the American Society for Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, ASTM Designation E 1527-13, and the collection, and interpretation of Phase II Environmental Assessment data.

EDUCATION

Bachelor of Science, Geological Sciences,

PROJECT EXPERIENCE

Soil Vapor Intrusion Assessment/Mitigation Studies (including Methane)

Soil Vapor Intrusion Assessment, Various
Locations, California

Debbie performed field oversight during the
installation of multiple soil vapor monitoring wells.
She assisted with health and safety oversight,
classified the soils during drilling activities and
assisted with the well installation and subsequent
soil vapor sampling.

Groundwater Supply / Wells

Humboldt Energy, Water Supply Assessment

Debbie coauthored a water supply assessment
report for a wind energy project located in
Humboldt County, California. Through research of
groundwater basins and geographic information
system analysis, she finalized a report used to
supplement the design and construction of over 60
wind turbines and ancillary facilities.

Deborah J Hernandez

Geologic Staff

Phase I & II Environmental Site Assessments

Environmental Site Assessment, San Bernardino, Ca

Debbie performed an onsite reconnaissance survey, historical records investigation, and formulated the report deliverable. The report provided a thorough review of the property history and defined present environmental concerns for the client.

Aerial Mapping

Mars Data Analyst, JPL*, Pasadena, Ca (Geology Intern)

Duties included mapping geologic safety hazards using HiRISE, CTX and THEMIS images on ArcGIS; analyzed rock classification and distributions to downselect eight landing sites to four. Characterized over 300 craters and their respective ejecta blankets for potential landing sites. Presented findings at the 2014 Geological Society of America Conference, Abstract #249384

** denotes projects completed with other firms*

Kyle has more than 28 years of professional experience—17 of those years with Stantec—providing geotechnical and environmental consulting. During the course of his experience, he has been involved with a wide variety of geological and engineering projects. He has been in direct charge of quality control/quality assurance (QA/QC) work for Stantec and previous firms for geological, engineering geological, and environmental services primarily in California. Additionally, Kyle has been a primary contact for Stantec with many different clients (including multi-party actions) and regulatory bodies involving contracting, workplan approvals, site assessments and closures, permitting, remedial action, and litigation support. With regard to litigation services, Kyle has extensive experience providing expert witness testimony, second-party review, and litigation support and analysis.

Kyle's extensive experience includes assessment and remediation of property-specific and regional issues involving soil and groundwater contaminated with petroleum hydrocarbons, chlorinated solvents, heavy metals, pesticides, and PCBs.

He currently serves as the managing principal geologist in Stantec's Redlands, California office.

EDUCATION

Engineering Geology/Hydrogeology, California State University, Los Angeles, California, 1984

AS, General Science, Crafton Hills College, Yucaipa, California, 1975

BS, Geological Sciences, California State University, Long Beach, California, 1982

REGISTRATIONS

Certified Engineering Geologist #1271, State of California Issued 1985, Expires 2011

Professional Geologist #4066, State of California Issued 1985, Expires 2011

PROJECT EXPERIENCE

Bioremediation

Excavation and Treatment of Petroleum-Contaminated Soil

Kyle designed the excavation and treatment of 45,000 cubic yards of petroleum-contaminated soil. Soil treatment included utilizing vapor extraction, combined with bioremediation.

Chemicals & Polymers

Two Former Chemical Plants, Environmental Site Assessments and Remediation, Vernon, California

Mr. Emerson was part of the team for conducting Phase I and Phase II Environmental Site Assessments (ESA) and developing remedial action plans for two former chemical plant sites with 80-year industrial histories. Phase I ESAs used historical files, maps, aerial photographs, available documents, and data from public agencies and historical directories for identifying recognized environmental concerns. Extensive Phase II ESA survey activities aided in identifying below-grade structures such as vaults/USTs, as well as assessing the extent of influence and nature of the contamination. These investigations confirmed the presence of heavy metals, petroleum hydrocarbons, volatile organic compounds, polychlorinated biphenyls, radioactive materials, semi-volatile organic compounds, and polycyclic aromatic compounds in the soils for these sites. Specific areas of concern included former settling ponds, a bone yard, maintenance areas, transformer and substations, wastewater treatment facilities, and above-ground storage tank farms. A conceptual mode was developed for use in a health risk assessment and developed risk-based corrective actions to address potential health and environmental concerns. He assisted with the development and implementation of a remedial action plan, combined administrative controls, engineering controls, and active remediation; this resulted in the cost-effective return of one site to active use, and is reducing health risks to occupants and the public at the second site.

CONFIDENTIAL: Aerospace Adhesives and Coatings Plant, Glendale, California

Mr. Emerson was part of the team that conducted feasibility studies to evaluate remedial alternatives for remediation of chlorinated VOCs, 1,4 dioxane, and hexavalent chromium (CrVI) in soil, soil vapor, and groundwater. Feasibility studies included groundwater pump testing, benchscale column testing to evaluate in situ alternatives for reducing CrVI to the less mobile CrIII valence state, soil vapor extraction, capping, and excavation. Field pilot studies were performed to evaluate the efficiency of various CrVI reductants including the use of ferrous sulfate, calcium polysulfide, emulsified oil, and fructose. Extensive multi-depth soil vapor testing was conducted to evaluate the distribution of VOCs in the subsurface and to support vapor intrusion risk assessment. Feasibility studies were completed in 2008. Remedial actions are expected to be completed in 2011.

Condition Assessments

Assessment and Mitigation of Manufacturing Facility

Kyle managed the assessment and mitigation of an ammunition manufacturing facility covering 1,100 acres in a complex geologic environment. The contaminants involved red and white phosphorous, TNT, chlorinated solvents, solid wastes, and live ordinance.

Soil Contamination Assessment Supervision and Management

Kyle managed and supervised soil contamination assessment and in-situ remediation of heavy metals involving chromium, cadmium, nickel and zinc by chemical fixation to depths in excess of 40 feet below ground surface beneath existing structures within several manufacturing facilities.

Kyle D. Emerson PG, CEG

Managing Principal Geologist

Litigation Support and Expert Testimony

Kyle provided litigation support and expert testimony on more than 20 separate projects involving service stations, chlorinated solvent cases, heavy metal, and semi-volatile releases.

Corporate / Office

Commercial Developer - Environmental Remediation of Former Dry Cleaners, El Centro, California

Mr. Emerson was responsible for assessments and remediation at this former dry cleaners which released the dry cleaning chemical tetrachloroethene (PCE) to the ground and underlying groundwater. The work included initial site assessment, agency interaction and negotiations with the California Regional Water Quality Control Board (CRWQCB), and Colorado Basin Region human health risk assessment (HHRA), design and implementation of remedial investigations, feasibility studies, remedial action plans, and implementation of remediation in mitigating chlorinated solvent contamination in vadose and saturated zones at concentrations indicative of DNAPL. The results of the completed remediation, as well as continued confirmation sampling and monitoring, allowed the CRWQCB to issue site closure in 2008. The site has since been redeveloped into a new commercial development.

Environmental Assessments

Siting Studies

Kyle performed initial siting studies for potential Class I, II, and III landfills. The project included detailed geologic mapping, hydrogeological studies, and permeability studies of caps and liners.

Environmental Site Remediation

Assessment and Remedial Design, California (Project Supervisor)

Kyle supervised the assessment and remedial design of a system to eliminate salt brine contamination in shallow perched water horizons in the Yucaipa, San Bernardino, and Riverside areas of southern California.

Design and Installation of Recovery Systems*

Kyle designed and installed numerous free-product recovery systems that successfully recovered product. One of the sites contained product up to 11-feet thick covering more than three city blocks. The dissolved phase had affected a multi-aquifer system and a public drinking water system.

Geophysical Characterizations*

Kyle performed and supervised numerous geophysical characterizations to determine the extent of old landfills. He provided classification studies, landfill gas monitoring, removal verification during grading, methane collection and mitigation plans, permitting, and closure plans.

Domestic Landfill Development*

Kyle designed and supervised the dynamic consolidation of a domestic landfill for development. He used this process to minimize expected settlement to overlying structures. Kyle designed commercial developments on closed landfills that involved complex methane collection and monitoring systems and building settlement controls.

* denotes projects completed with other firms

Kyle D. Emerson PG, CEG

Managing Principal Geologist

Clay Borrow Site Studies

Kyle performed more than 10 separate clay borrow site studies for determining sources of material to cap landfills; ranged from a 20-acre dry lakebed to a 450-acre parcel in complex folded marine sediments.

Assessment, Clean Up, and Regulatory Support Management, Santa, Monica (Project Manager)

Kyle managed the assessment, clean up, and complex regulatory support of a PRP site in an MTBE case (Charnock subbasin). His work involved more than 20 environmental professionals working full time for two years to complete the assessment and clean up mandated by the regulatory agencies.

Hazardous Waste

San Gabriel Valley Superfund Site, Remediation & Closure of Multiple Source Areas, Industry, California

Mr. Emerson performed feasibility studies to evaluate appropriate and relevant remedial alternatives to mitigate constituents of concern in five AOCs contaminated with chlorinated hydrocarbons, heavy metals, petroleum fuel, and cutting oils. Ultimately, a combination of remedial alternatives was implemented that included large-diameter auger excavation to 45 feet to minimize impacts on facility operations, vapor extraction, vapor intrusion risk assessment, deed restriction, and monitored natural attenuation. At the completion of remedial actions, confirmation soil, soil vapor, and groundwater sampling were conducted and followed with risk assessment to demonstrate that remedial objectives had been achieved. No further action was recently granted by the US EPA and Los Angeles Regional Water Quality Control Board.

Mixed-Use

Port of San Diego Rohr Facility, Chula Vista, California

Mr. Emerson assisted in a detailed subsurface assessment of the Rohr facility. The intent of the assessment was to evaluate the 40-acre former aircraft part manufacturing facility for acquisition by the Port of San Diego for redevelopment into a business park and entertainment complex. The assessment identified the presence of soil, soil vapor, and groundwater impacts by petroleum hydrocarbons, VOCs, heavy metals, PCBs, and semi-volatile organic compounds. He utilized many sampling techniques to assess the limits and concentrations of contaminants in the subsurface. Ultimately, the team was able to develop a cost estimate for potential remedial action cost associated to corrective action to allow redevelopment.

Master Planned Commercial/Residential Redevelopment Project, Whittier, California (Project Manager)

Kyle oversaw the assessment of 26 contiguous properties that are part of a 21-acre master planned commercial/residential redevelopment project. The properties included industrial facilities, platting lines, fuel USTs, and metal processing plants, among others. The estimated cleanup costs are approximately \$2 million.

* denotes projects completed with other firms

Kyle D. Emerson PG, CEG

Managing Principal Geologist

Multi-Unit / Family Residential

Residential Development Assessment, Ventura, California (Project Director)

Kyle directed an assessment of a 40-acre former agricultural property proposed for residential development. Pesticides were identified above hazardous waste levels and preliminary remediation goals established by the U.S. Environmental Protection Agency. Through corrective grading methods and onsite placement of the pesticide impacted soils, all material were re-used on site without offsite disposal. The overall cost savings for the client was more than \$1 million. Total cost was less than \$250,000 for all necessary activities.

Oil & Gas

Oil Field Site Assessments*

Kyle performed site assessments at oil field leases involving refineries, bulk storage areas, piping systems and wellhead, and drilling mud pit contamination.

Environmental Protection Agency Superfund Action, Culver City, California (Project Manager)

Kyle served as the project manager representing a major oil company in the assessment, remedial action, and litigation support in a multi-party contamination case affecting a City water supply. The assessment involved more than 250 continuous core borings up to 100 feet, as well as extensive remedial actions. The total cost for all related activities was \$22 million. The case is settled and the closure of the site is pending.

Project Management

Liability and Property Management Consulting Services

Kyle is providing liability and property management consulting services to more than 10 medium to large property development firms in the US. His work involves property transaction assessments, contract review, acquisition guideline development, liability management evaluation, insurance acquisition, and strategic planning.

Residential Development

Environmental Development Management and Review (Project Manager)

Kyle manages and reviews environmental development issues for a large residential developer specializing in development of contaminated industrial properties by providing innovative solutions in developing contaminated properties for residential use through risk assessment, engineering, and administrative and property development controls.

Site Management and Remediation

Design and Implementation of Biodegradation Programs*, California

Kyle designed and implemented one of the first in-situ biodegradation programs in California; it involved 50,000 cubic yards of diesel-contaminated soils, and groundwater to depths of 70 feet below ground surface.

* denotes projects completed with other firms

Soil and Groundwater Remediation Systems

Soil and Groundwater Contamination Assessments and Mitigation*, California (Project Manager)

Kyle managed numerous chlorinated solvent soil and groundwater contamination assessments and mitigation programs in southern California. The projects involved releases that impacted soil and groundwater to depth of groundwater more than 700 feet in multi-aquifer systems. One case involved with plume dimensions more than 1 mile from the source affecting residential properties.

Soil and Groundwater Assessment and Remediation Programs*

Implemented hundreds of soil and groundwater assessment and remediation programs at various service station facilities in Southern and Northern California, and Nevada. Work involved assessment, remedial design, installation, maintenance and monitoring. Closure has been received on a majority of these sites.

Assessment and Remediation Management*

Kyle managed the assessment and remediation of soil and groundwater manufacturing at dry cleaning facilities contaminated with chlorinated solvents.

Warehouse / Light Industrial

Glendale Redevelopment Project, Glendale, California (Project Manager)

Kyle managed the assessment and remedial actions during the redevelopment of an industrial property. The project involved the demolition of a historic manufacturing facility and a commercial dry cleaner. Each of these facilities were associated with releases of solvents and petroleum hydrocarbons. Remedial actions involved excavation by pattern drilling and off site disposal along with removal of former USTs. The total cost of remediation and assessment was \$450,000.00.

Compton Redevelopment Project, Compton, California (Project Manager)

Kyle is serving as project manager for the assessment and remedial actions for a large redevelopment project. The project involves the redevelopment of a historic manufacturing facility and a former dry cleaner. Each of these facilities were associated with releases of solvents and petroleum hydrocarbons. The industrial facility was also associated with significant volumes of buried waste that required removal and disposal. These wastes also included the chemical referenced above, as well as PCBs and heavy metals. Remediation has included excavation, vapor extraction, and chemical fixation. The total cost of this project has been \$2.8 million to date.

PRELIMINARY REPORT

In response to the above referenced application for a policy of title insurance, this company hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said Policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Exhibit A attached. *The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties.* Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

Please be advised that any provision contained in this document, or in a document that is attached, linked or referenced in this document, that under applicable law illegally discriminates against a class of individuals based

upon personal characteristics such as race, color, religion, sex, sexual orientation, gender identity, familial status, disability, national origin, or any other legally protected class, is illegal and unenforceable by law.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of July 13, 2021 at 7:30 A.M.

The form of Policy of title insurance contemplated by this report is:

ALTA Extended Loan Policy - 2006

ALTA Extended Owner Policy - 2006

A specific request should be made if another form or additional coverage is desired.

Title to said estate or interest at the date hereof is vested in:

COTATI COMMONS MARKETPLACE LLC, A CALIFORNIA LIMITED LIABILITY COMPANY

The estate or interest in the land hereinafter described or referred to covered by this Report is:

A fee as to Parcel(s) One and Two, an easement as to Parcel(s) One-A, One-B, Two-A and Two-B.

The Land referred to herein is described as follows:

Prior to the issuance of any policy of title insurance, the Company will require:

23. With respect to Cotati Commons Marketplace LLC, a California limited liability company:
 - a. A copy of its operating agreement and any amendments thereto;
 - b. If it is a California limited liability company, that a certified copy of its articles of organization (LLC-1) and any certificate of correction (LLC-11), certificate of amendment (LLC-2), or restatement of articles of organization (LLC-10) be recorded in the public records;
 - c. If it is a foreign limited liability company, that a certified copy of its application for registration (LLC-5) be recorded in the public records;
 - d. With respect to any deed, deed of trust, lease, subordination agreement or other document or instrument executed by such limited liability company and presented for recordation by the Company or upon which the Company is asked to rely, that such document or instrument be executed in accordance with one of the following, as appropriate:
 - (i) If the limited liability company properly operates through officers appointed or elected pursuant to the terms of a written operating agreement, such document must be executed by at least two duly elected or appointed officers, as follows: the chairman of the board, the president or any vice president, and any secretary, assistant secretary, the chief financial officer or any assistant treasurer;
 - (ii) If the limited liability company properly operates through a manager or managers identified in the articles of organization and/or duly elected pursuant to the terms of a written operating agreement, such document must be executed by at least two such managers or by one manager if the limited liability company properly operates with the existence of only one manager.
 - e. Other requirements which the Company may impose following its review of the material required herein and other information which the Company may require
24. With respect to Cotati Commons Marketplace LLC, a California limited liability company, a certificate of revivor and a certificate of relief from contract voidability issued by the Franchise Tax Board of the State of California.
25. An ALTA/NSPS survey of recent date which complies with the current minimum standard detail requirements for ALTA/NSPS land title surveys.

INFORMATIONAL NOTES

Note: The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than the certain dollar amount set forth in any applicable arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. If you desire to review the terms of the policy, including any arbitration clause that may be included, contact the office that issued this Commitment or Report to obtain a sample of the policy jacket for the policy that is to be issued in connection with your transaction.

NOTICE

Section 12413.1 of the California Insurance Code, effective January 1, 1990, requires that any title insurance company, underwritten title company, or controlled escrow company handling funds in an escrow or sub-escrow capacity, wait a specified number of days after depositing funds, before recording any documents in connection with the transaction or disbursing funds. This statute allows for funds deposited by wire transfer to be disbursed the same day as deposit. In the case of cashier's checks or certified checks, funds may be disbursed the next day after deposit. In order to avoid unnecessary delays of three to seven days, or more, please use wire transfer, cashier's checks, or certified checks whenever possible.

EXHIBIT A
LIST OF PRINTED EXCEPTIONS AND EXCLUSIONS (BY POLICY TYPE)

CLTA STANDARD COVERAGE POLICY – 1990
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
- (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
 - (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
 - (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
 - (c) resulting in no loss or damage to the insured claimant;
 - (d) attaching or created subsequent to Date of Policy; or
 - (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the public records at Date of Policy.

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
 - a. building;
 - b. zoning;
 - c. land use;

- d. improvements on the Land;
 - e. land division; and
 - f. environmental protection.
- This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
 3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
 4. Risks:
 - a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
 - b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
 - c. that result in no loss to You; or
 - d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
 5. Failure to pay value for Your Title.
 6. Lack of a right:
 - a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
 - b. in streets, alleys, or waterways that touch the Land.

This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
 7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
 8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
 9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:
For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.
The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	<u>Your Deductible Amount</u>	<u>Our Maximum Dollar Limit of Liability</u>
Covered Risk 16:	1% of Policy Amount Shown in Schedule A or \$2,500 (whichever is less)	\$10,000
Covered Risk 18:	1% of Policy Amount Shown in Schedule A or \$5,000 (whichever is less)	\$25,000
Covered Risk 19:	1% of Policy Amount Shown in Schedule A or \$5,000 (whichever is less)	\$25,000
Covered Risk 21:	1% of Policy Amount Shown in Schedule A or \$2,500 (whichever is less)	\$5,000

2006 ALTA LOAN POLICY (06-17-06)
EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;

- (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
 5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
 6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
 7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

[Except as provided in Schedule B - Part II, [t[or T]his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

[PART I

[The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the Public Records at Date of Policy.

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:]

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;

- (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 or 10); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
- (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of: [The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the Public Records at Date of Policy.
7. [Variable exceptions such as taxes, easements, CC&R's, etc. shown here.]

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY (07-26-10)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;

or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

(b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.

2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the

Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.

7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

Privacy Notice

Effective: October 1, 2019

Notice Last Updated: January 1, 2021

This Privacy Notice describes how First American Financial Corporation and its subsidiaries and affiliates (together referred to as "First American," "we," "us," or "our") collect, use, store, and share your information. This Privacy Notice applies to information we receive from you offline only, as well as from third parties, when you interact with us and/or use and access our services and products ("Products"). For more information about our privacy practices, including our online practices, please visit <https://www.firstam.com/privacy-policy/>. The practices described in this Privacy Notice are subject to applicable laws in the places in which we operate.

What Type Of Information Do We Collect About You? We collect a variety of categories of information about you. To learn more about the categories of information we collect, please visit <https://www.firstam.com/privacy-policy/>.

How Do We Collect Your Information? We collect your information: (1) directly from you; (2) automatically when you interact with us; and (3) from third parties, including business parties and affiliates.

How Do We Use Your Information? We may use your information in a variety of ways, including but not limited to providing the services you have requested, fulfilling your transactions, comply with relevant laws and our policies, and handling a claim. To learn more about how we may use your information, please visit <https://www.firstam.com/privacy-policy/>.

How Do We Share Your Information? We do not sell your personal information. We only share your information, including to subsidiaries, affiliates, and to unaffiliated third parties: (1) with your consent; (2) in a business transfer; (3) to service providers; and (4) for legal process and protection. To learn more about how we share your information, please visit <https://www.firstam.com/privacy-policy/>.

How Do We Store and Protect Your Information? The security of your information is important to us. That is why we take commercially reasonable steps to make sure your information is protected. We use our best efforts to maintain commercially reasonable technical, organizational, and physical safeguards, consistent with applicable law, to protect your information.

How Long Do We Keep Your Information? We keep your information for as long as necessary in accordance with the purpose for which it was collected, our business needs, and our legal and regulatory obligations.

Your Choices We provide you the ability to exercise certain controls and choices regarding our collection, use, storage, and sharing of your information. You can learn more about your choices by visiting <https://www.firstam.com/privacy-policy/>.

International Jurisdictions: Our Products are offered in the United States of America (US), and are subject to US federal, state, and local law. If you are accessing the Products from another country, please be advised that you may be transferring your information to us in the US, and you consent to that transfer and use of your information in accordance with this Privacy Notice. You also agree to abide by the applicable laws of applicable US federal, state, and local laws concerning your use of the Products, and your agreements with us.

We may change this Privacy Notice from time to time. Any and all changes to this Privacy Notice will be reflected on this page, and where appropriate provided in person or by another electronic method. **YOUR CONTINUED USE, ACCESS, OR INTERACTION WITH OUR PRODUCTS OR YOUR CONTINUED COMMUNICATIONS WITH US AFTER THIS NOTICE HAS BEEN PROVIDED TO YOU WILL REPRESENT THAT YOU HAVE READ AND UNDERSTOOD THIS PRIVACY NOTICE.**

For California Residents

If you are a California resident, you may have certain rights under California law, including but not limited to the California Consumer Privacy Act of 2018 ("CCPA"). All phrases used in this section shall have the same meaning as those phrases are used under California law, including the CCPA.

Right to Know. You have a right to request that we disclose the following information to you: (1) the categories of **personal information** we have collected about or from you; (2) the categories of sources from which the **personal information** was collected; (3) the business or commercial purpose for such collection and/or disclosure; (4) the categories of third parties with whom we have shared your **personal information**; and (5) the specific pieces of your **personal information** we have collected. To submit a verified request for this information, go to our online privacy policy at www.firstam.com/privacy-policy to submit your request or call toll-free at 1-866-718-0097. You may also designate an authorized agent to submit a request on your behalf by going to our online privacy policy at www.firstam.com/privacy-policy to submit your request or by calling toll-free at 1-866-718-0097.

Right of Deletion. You also have a right to request that we delete the **personal information** we have collected from and about you. This right is subject to certain exceptions available under the CCPA and other applicable law. To submit a verified request for deletion, go to our online privacy policy at www.firstam.com/privacy-policy to submit your request or call toll-free at 1-866-718-0097. You may also designate an authorized agent to submit a request on your behalf by going to our online privacy policy at www.firstam.com/privacy-policy to submit your request or by calling toll-free at 1-866-718-0097.

Verification Process. For either a request to know or delete, we will verify your identity before responding to your request. To verify your identity, we will generally match the identifying information provided in your request with the information we have on file about you. Depending on the sensitivity of the information requested, we may also utilize more stringent verification methods to verify your identity, including but not limited to requesting additional information from you and/or requiring you to sign a declaration under penalty of perjury.

Notice of Sale. We do not sell California resident information, nor have we sold California resident information in the past 12 months. We have no actual knowledge of selling the information of minors under the age of 16.

Right of Non-Discrimination. You have a right to exercise your rights under California law, including under the CCPA, without suffering discrimination. Accordingly, First American will not discriminate against you in any way if you choose to exercise your rights under the CCPA.

Notice of Collection. To learn more about the categories of **personal information** we have collected about California residents over the last 12 months, please see "What Information Do We Collect About You" in <https://www.firstam.com/privacy-policy>. To learn about the sources from which we have collected that information, the business and commercial purpose for its collection, and the categories of third parties with whom we have shared that information, please see "How Do We Collect Your Information", "How Do We Use Your Information", and "How Do We Share Your Information" in <https://www.firstam.com/privacy-policy>.

Notice of Sale. We have not sold the **personal information** of California residents in the past 12 months.

Notice of Disclosure. To learn more about the categories of **personal information** we may have disclosed about California residents in the past 12 months, please see "How Do We Use Your Information" and "How Do We Share Your Information" in <https://www.firstam.com/privacy-policy>.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 09/13/2021 has revealed that there is 1

EXECUTIVE SUMMARY

RCRA-LQG site within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
UNOCAL SERCIVE STATI EPA ID:: CAD982056558	8600 GRAVENSTEIN HWY	ESE 1/8 - 1/4 (0.150 mi.)	G38	186

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 09/13/2021 has revealed that there are 5 RCRA-SQG sites within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Lists of state- and tribal (Superfund) equivalent sites

RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

A review of the RESPONSE list, as provided by EDR, has revealed that there is 1 RESPONSE site within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
OUTER LANDING FIELD, Database: RESPONSE, Date of Government Version: 10/25/2021 Facility Id: 80001176 Status: No Further Action	ROHNERT PARK EXPRESS	N 1/2 - 1 (0.972 mi.)	R108	550

EXECUTIVE SUMMARY

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 10/25/2021 has revealed that there are 2 ENVIROSTOR sites within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Lists of state and tribal leaking storage tanks

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 29 LUST sites within approximately 0.5 miles of the target property.

Lists of state and tribal registered storage tanks

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 11 UST sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 09/13/2021 has revealed that there are 13 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto sites within approximately 0.125 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 3 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Violation Date: 03-01-2016
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 03/29/2016. Stated hazard waste properties noted on hazardous waste label disagreed with SDS information. Immediately label these containers and ensure that all hazardous waste containers are marked with all the required information.
Violation Division: Sonoma County Fire & Emergency Services Department
Violation Program: HW
Violation Source: CERS,

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 02-15-2019
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: Reviewed EPA ID profile. Discussed waste handling and emergency procedures. Visited hazardous waste generation work areas, waste storage, accumulation start dates and manifest documentation.
Eval Division: Sonoma County Fire & Emergency Services Department
Eval Program: HW
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 03-01-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: See written inspection report for additional comments.

Environmental Interest/Information System:

AIR EMISSIONS CLASSIFICATION UNKNOWN
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Status: Completed - Case Closed
Status Date: 03/11/2014
Case Worker: LCW
RB Case Number: 1TSO010
Local Agency: SONOMA COUNTY LOP
File Location: Local Agency Warehouse
Local Case Number: 00001261
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Gasoline
Site History: Site investigation initiated in 1985. In 1991 two 8000 gallon and one 6000 gallon USTs were removed and replaced with three 12000 gallon double walled USTs. Free product was discovered during a line and dispenser upgrade in 2001. The free preoduct was removed from affected monitoring wells.. A total of 86 tons of contaminated soil was removed during the line and dispenser upgrade. In the spring of 2006 a SVE and ozone sparge system was installed. Site closed 3/11/2014.

Site ID: 153614
Site Name: Save on Gas
Violation Date: 10-07-2021
Citation: HSC 6.7 25284.2 - California Health and Safety Code, Chapter 6.7, Section(s) 25284.2
Violation Description: "Failure to meet one or more of the following requirements: Install or maintain a liquid-tight spill container. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill container. Be resistant to galvanic corrosion. Perform a tightness test at installation, every 12 months thereafter, or within 30 days after a repair to the spill container. Tested using applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Tested by a certified UST service technician. Maintain records of spill containment testing for 36 months. "
Violation Notes: Returned to compliance on 10/07/2021. 87 slave fill spill bucket failed lake test. Fill riser cap has a bad gasket. Repair or replace spill bucket in order to pass lake test. Service technician replaced fill riser cap. ***Corrected on-site***

Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: 55-gallon drum of hazardous waste (fuel water) has an accumulation start date of: 10-31-2018. Accumulation time limit of 180 days has been exceeded. Dispose of hazardous waste that has been stored over the applicable time limit and provide documentation that the violation has been corrected. Submit a copy of hazardous waste manifest to: Raymond.Yim@sonoma-county.org

Eval Date: 10-31-2018
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: During Monitor-Certification testing - Reviewed haz mat business plan and inventory. During site inspection - verified haz mat storage, discussed haz mat emergency response and documentation for annual training.

Eval Division: Sonoma County Fire & Emergency Services Department
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-21-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: Witnessed testing of Positive Shutdown (PSD) components: STP sumps, UDCs, Sensor out, Failsafe and E-stop; all passed. Witnessed Alarm only sensor testing: Fill sumps, annular brine sensors, all pass. Witnessed 3 gph @10 psi test of both Line leak detectors; 87 passed first test, 91 failed first test, then passed after adjustment of the LD2000 MLD. All on-site documentation was in order. CERS UST data needed to be corrected for 87 slave tank to show that it does not have a MLD and pressurized piping. It is connected to 87 main via syphon.

Eval Division: Sonoma County Fire & Emergency Services Department
Eval Program: UST
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-24-2015
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Witnessed UST Monitoring System Certification performed by Petrotech. Conducted tests on all sensors, leak detectors and spill buckets. Reviewed required documentation. Note that Owner Died last month, and owners sons are selling the station - it is escrow.

Eval Division: Sonoma County Fire & Emergency Services Department
Eval Program: UST
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 10-14-2016
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: Witnessed SB 989 Secondary Containment tested performed by Stroup Petroleum (documentation current). Product lines to dispensers passed-held 6 psi for > 1 hour. Fill sumps and spill buckets passed Caldwell accelerated tests. Product syphon lines between 87 STP tank and 87 piping sump had cracked test boots and could not be tested. Discontinued syphon line from 91 tank to 87 piping sump had bad schrader valves and could not be tested. 87STP, 91STP and 87 piping sumps could also not be tested due to cracked boots. UDC were under test when I left. Facility must repair test boots and complete secondary containment testing within the next 30 days. Check DO training record to verify that the station cashier has had proper DO training and is current with training. Notify County Fire when repairs will take place, and contact County Fire with information about staff training.

Click Here:

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Case Type: LUST Cleanup Site
Geo Track: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0609700386
Global Id: T0609700386
Latitude: 38.330939421
Longitude: -122.714960001
Status: Completed - Case Closed
Status Date: 04/28/2020
Case Worker: LCW
RB Case Number: 1TSO551
Local Agency: SONOMA COUNTY LOP
File Location: All Files are on GeoTracker or in the Local Agency Database
Local Case Number: 00001670
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Gasoline, Diesel
Site History:

11/1991 five groundwater monitoring wells installed 11/1993 five USTs removed approximately 600 cubic yards of contaminated soil removed; four monitoring wells removed during the excavation 11/1994 three 15,000 gallon USTs installed 1/1996 three additional monitoring wells stalled 4/2007 one additional monitoring well installed 12/1999 a Remedial Alternative Feasibility Study (FS/CAP) was submitted; FS recommended chemical oxidation as a feasible, cost-effective remedial technology for the site 7/2001 eight continuous-core soil borings advanced 5/2002 one additional monitoring well installed 3/2005 a Corrective Action Plan (CAP) was submitted with recommendation to install a Dual Phase Extraction remedial system 8/18/2005 DPE remediation plan accepted 11/14/2005 Extraction wells installed 12/8/2005 Extraction wells installed 5/31/2007 CAP Addendum proposes 3 10-day mobile unit extractions rather than permanent system. June 2007 22-day DPE event DPE event 9/13/10 through 10/13/10. 12 monitoring wells, 1 observation well, 4 extraction wells and 5 vapor wells were installed. 4 monitoring wells and the observation well have been destroyed. The site meets the Low Threat Closure Policy as follows: All General Criteria are met. Groundwater Specific Criteria is met by criteria 5a. The consultant states that the groundwater plume is generally stable to decreasing, domestic wells are not threatened by the current or future site conditions and analytes remaining in groundwater are projected to meet water quality objectives within a reasonable time frame. Vapor Intrusion to Indoor Air Criteria is met by the exemption as the site is an active commercial petroleum fueling facility. Direct Contact and Outdoor Air Exposure Criteria is met by criteria 3a. The LOP licensed professional generally concurs with the assessment. Remediation History: Over excavation at the time of the tank removal on 11/12/93 removing 400 cubic yards. The excavation was 32x 45 x 12 deep. Over excavation during the installation of underground storage tanks on 10/12/94 removed 500 cubic yards. The excavation was 80 x 60 x 16 deep. Dual Phase Extraction (DPE) pilot testing occurred from 5/30/02 through 5/31/02 removing 1,600 gallons of groundwater, 24.15 lbs of TPH vapor and .07 lbs MTBE vapor. Batch groundwater extraction events occurred from 9/03 through 6/05 removing approximately 147, 000

gallons of groundwater. DPE occurred from 6/5/07 through 6/27/07 removing 102,990 gallons of groundwater and 3,321 lbs TPH vapor. DPE occurred from 1/14/09 through 1/23/09 removing 39,000 gallons of groundwater and 496 lbs hydrocarbon vapor. DPE occurred from 9/15/09 through 10/13/09 removing 75,380 gallons of groundwater, 789 lbs of TPH vapor and 1.2 lbs benzene vapor. DPE occurred from 9/13/10 through 10/13/10 removing 77,572 gallons of groundwater, 79 lbs of TPH vapor and .26 lbs benzene vapor. Site Management Requirements: Contingency planning is required for worker safety and waste disposal if excavating in area(s) of residual contamination. The Building Department has been notified. Newly proposed water supply wells may require siting and design by a qualified professional engineer or geologist. Sonoma County Permit and Resource Management Department has been notified. A Soil and Groundwater Management Plan has been submitted and is on Geotracker. Monitoring wells have been destroyed and investigative derived wastes have been removed from the site. SITE CLOSED ON 4/28/2020

Eval Notes: Richard Thomas of TankTek conducted testing, ICC certs current. STP sumps dry other than condensation, Fill sumps had water but are not equipped with sensors, tech removed water. UDCs dry. ATGs tested for high water, passed. Site has flappers for overflow protection. 87 and 89 STP sumps 305 sensors had frayed wires on top, tech replaced with current VR replacement sensor 208. No permit required. All STP sensors give PSD after replacements installed. Annular sensor for 89 had broken insulation at the seal and corrosion on leads; they broke when cap was removed. Replaced with new VR412. All annular sensors alarmed and PSD. UDC sensors all passed and gave PSD. Fail safe OK, Sensor out, OK, E-stop functional. 91 leak detector did not detect 3gph@10psi leak, replaced with LD 2000 MLLD and line passed. 87 and 89 Line leak detectors passed. CERS documentation was current, but tank manufacturer and age need to be corrected to "Trusco" tank, and "1994" for installation dat

Eval Division: Sonoma County Fire & Emergency Services Department
Eval Program: HW
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-17-2014
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: Annual Monitor Cert w/Tank-Tek. Note, found 20-30 gallons of water in each fill sump (no sensors). ESO requires signage.
Eval Division: Sonoma County Fire & Emergency Services Department
Eval Program: UST
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 09-05-2017
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: Witnessed primaries under pressure test. Discussed the upcoming tests with CGRS technicians, and, because they are performing the IOTA tracer test once the secondary is in place, we elected to pass on the soap bubble test, because the IOTA test is more definitive. OK to backfill after IOTA testing and repairs (if necessary).
Eval Division: Sonoma County Fire & Emergency Services Department
Eval Program: UST
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-22-2013
Violations Found: No

Eval Type: Routine done by local agency
Eval Notes: Previous property lessee "Minatta Transportation"
established AST closure in 2009. Reliable Crane moved in to the
property and established use of the 10,000 gal fuel tank without
establishing an SPCC plan as required by the California Aboveground
Petroleum Storage Act (APSA). Reliable Crane directed me to their
Environmental Contractor Mr. George Goobanoff 707-799-2543.

Agency Type: Private
SIC Code: 4231
SIC Code 2: Not reported
Primary Waste Type: Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
Primary Waste: STORMS
Waste Type2: Not reported
Waste2: Stormwater Runoff
Primary Waste Type: Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
Secondary Waste: Not reported
Secondary Waste Type: Not reported
Design Flow: 0
Baseline Flow: 0
Reclamation: No reclamation requirements associated with this facility.
POTW: The facility is not a POTW.
Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS AIR POLLUTANT MAJOR

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Name: SHELL SERVICE STATION (FORMER)
 Address: 7675 OLD REDWOOD HWY
 City,State,Zip: COTATI, CA 94931
 Lead Agency: SONOMA COUNTY LOP
 Case Type: LUST Cleanup Site
 Geo Track: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0609700189
 Global Id: T0609700189
 Latitude: 38.331428509
 Longitude: -122.711119759
 Status: Completed - Case Closed
 Status Date: 04/13/2021
 Case Worker: LCW
 RB Case Number: 1TSO250
 Local Agency: SONOMA COUNTY LOP
 File Location: All Files are on GeoTracker or in the Local Agency Database
 Local Case Number: 00001499
 Potential Media Affect: Aquifer used for drinking water supply
 Potential Contaminants of Concern: Gasoline
 Site History:

Site was entered to the North Coast Regional Water Quality Control Board (NCRWQCB) for oversight in 1988 due to a 2000 gallon loss of fuel. Site was transferred to Local Oversight Program (LOP) in 1993. Twenty two monitoring/remediation wells and 4 soil vapor wells have been installed. Five monitoring/remediation wells have been destroyed. Remediation History: Groundwater Extraction (GWE) occurred intermittently from 1991 through 6/2/1997 removing approximately 1341 lbs of TPH removed. Soil Vapor Extraction (SVE) occurred intermittently from 9/1994 through 9/1996 removing approximately 1980 lbs of vapor. During system upgrade from 9/19/1998 through 10/1/1998 approximately 12,500 gallons of groundwater was removed and 10 cubic yards of soil under the dispensers was removed and properly disposed. Limited over-excavation occurred during the Underground Storage Tank Removal on 11/27/2001. Approximately 440 Cubic Yards (609 tons) of soil was properly disposed. Dual Phase Extraction (DPE) Pilot Test occurred from 5/10/2004 through 5/14/2004 removing approximately 104 lbs of vapor and 1858 gallons of groundwater. DPE occurred from 9/7/2005 through 1/1/2006 removing 548.13 lbs TPHg and 5.68 lbs benzene. Approximately 130,131 gallons of groundwater (GW) was removed. GWE occurred from 6/26/2006 through 8/7/2008 removing approximately 74,115gallons of GW, 36.51 lbs TPHg and 3.31 lbs benzene. Excavation of the site occurred from 10/19/2009 through 11/12/2009 removing approximately 2271 cubic yards of soil and 16,739 gallons of GW. The excavation was to the extent possible. Injection of ORC and RegenOx into 10 borings occurred from 11/26/2019 through 11/27/2019. Site Management Requirements: Contingency planning is required for worker safety and waste disposal if excavating in area(s) of residual contamination. The Building Department has been notified. Newly proposed water supply wells may require siting and design by a qualified professional engineer or geologist. Sonoma County Permit and Resource Management Department (Permit Sonoma) has been notified. A Soil and Groundwater Management Plan has been submitted and is on Geotracker. The site meets the Low Threat Closure Policy as follows: All General Criteria are met. Groundwater Specific

Criteria is met by criteria 5a. The consultant states that water quality objectives will be met by 2060, the plume is stable and the first order decay model indicates that none of the active/inactive water supply wells within 430 feet of the site would be impacted. Vapor Intrusion to Indoor Air Criteria is met by criteria 2a, scenario 4. Direct Contact and Outdoor Air Exposure Criteria is met by criteria 3a. The above findings were reviewed and concurred with by the LOP Licensed Professional. All monitoring/remediation/soil vapor wells have been properly destroyed. All investigative derived wastes have be properly disposed. SITE CLOSED on 4/13/2021

Waste2: Stormwater Runoff
Primary Waste Type: Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
Secondary Waste: Not reported
Secondary Waste Type: Not reported
Design Flow: 0
Baseline Flow: 0
Reclamation: No reclamation requirements associated with this facility.
POTW: The facility is not a POTW.
Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Violation Date: 01-21-2016
Citation: HSC 6.7 25290.1(e) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(e)
Violation Description: Failure to maintain the interstitial space under constant vacuum, pressure, or hydrostatic such that a breach in the primary or secondary containment is detected before the liquid or vapor phase of the hazardous substance stored in the UST tank is released into the environment. (Product Tight)
Violation Notes: Returned to compliance on 01/21/2016. The liquid sensor in T2/3 annular was not working. Technician replaced like for like, and the sensors passed. Replace faulty sensor
Violation Division: Sonoma County Fire & Emergency Services Department
Violation Program: UST
Violation Source: CERS,

Site ID: 21971
Site Name: Cotati Chevron
Violation Date: 01-06-2021
Citation: HSC 6.7 25290.1(c)(3),25290.2(c)(3) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(c)(3),25290.2(c)(3)
Violation Description: Failure to keep water out of the secondary containment of UST systems installed on or after July 1, 2003.
Violation Notes: Returned to compliance on 01/06/2021. Liquid buildup observed in: UDC 7/8, 87 and Diesel #2 STP sumps. Remove liquid buildup from the above locations. ***Corrected on-site***

Eval Notes: County Fire Inspector Comments: Witnessed annual UST monitoring system certification performed by Joel Hendrix of Nor-Cal Compliance Inc. ICC certification expires on 09/03/2021. This system consists of 3 double-walled tanks that were installed on: 03/10/1999. Visual Inspection: All sumps and UDCs were clean and dry, except for UDC 7/8, 87 and Diesel #2 STP sumps. UST System Tests: -STP sumps are monitored by VR 208 sensors. Tested by immersion in water, all passed by triggering turbine positive shutdown (PSD) and audible+visual alarm on TLS350 console. -Fill sumps are direct bury. -UDCs monitored by VR 208 sensors. All tested in water, passed by triggering PSD and alarm at TLS console. -Annular sensors for tanks are VR 420 sensors, tested by immersion in water. Passed by triggering visual and audible alarm at TLS console. -Emergency shutoff functioning properly. -Failsafe (power out) passed - Disconnecting power to TLS C... Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Case Worker: JSD
 RB Case Number: 1TSO509
 Local Agency: SONOMA COUNTY LOP
 File Location: All Files are on GeoTracker or in the Local Agency Database
 Local Case Number: Not reported
 Potential Media Affect: Aquifer used for drinking water supply
 Potential Contaminants of Concern: Gasoline
 Site History: The site is an active gas station and car wash. Historical timeline of the station operation is unknown. There are three underground fuel tanks at the site that were lined in 1992. A release was discovered during that work and investigation and monitoring has been on-going until 2006. A remediation system was approved in 2006. A failed pilot test for SVE occurred in 2014. Four consecutive ground water sample events were directed in May 2015. Domestic well located at 141 Helman was directed to be verified and sampled. A soil vapor survey was required near the adjacent business due to high benzene concentrations (the site itself is exempt as it is an operating fueling station.) CASE REFERRED TO NCRWQCB on 5/13/2021

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

File Location: All Files are on GeoTracker or in the Local Agency Database
Local Case Number: 00001434
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Gasoline
Site History: Excerpt from Well Installation Report (ERI, Dec. 29, 2009) A 550-gallon used-oil tank was removed in 1986 (GTI, 1987). Four 6,000-gallon USTs and associated piping were removed in 1991 (SEACOR, 1992). Pacific Environmental Group (Pacific) constructed an SVE system and GWPTS at the site in November 1995, which began operation in January 1996. The SVE system removed more than 8,000 pounds of hydrocarbons (Pacific, 1996). The SVE system was shutdown in May 1997 due to influent concentrations near or below laboratory reporting limits. The GWPTS operated intermittently between January 1996 and April 1997 when the system was shutdown due to continued concentrations of hydrocarbons in effluent samples after carbon changeout. The GWPTS removed approximately 3,200,000 gallons of water and 138 pounds of hydrocarbons (ERI, 1999). ERI operated the AS/SVE system at the site from July 2001 to March 2004. The AS/SVE system removed a maximum of approximately 3,322 pounds of TPHg, 9.5 pounds of benzene, and 68 pounds of MTBE during this time (ERI, 2005). ERI operated the GWPTS from April 2002 through December 2004. The GWPTS processed 181,090 gallons of water and removed approximately 10 pounds of TPHg, 1.7 pounds of benzene, and 8 pounds of MTBE (ERI, 2005). Groundwater Monitoring Activities Quarterly groundwater monitoring was implemented at the site in 1987. NAPL has not been encountered. Rotten Robbie #41 is sampled concurrently. Dissolved-phase TPHg, benzene, and MTBE are present in wells north of the former used-oil tank pit, beneath the northeast corner of the site, and in the wells on the Rotten Robbie site (ERI, 2009d). MTBE is also present in off-site wells on the north side of Southwest Boulevard. Maximum concentrations of hydrocarbons are encountered in wells MW6 and AS/A11 at the northeast corner of the site and in wells on the Rotten Robbie site (ERI, 2009d). During the monitoring program, hydrocarbon concentrations in the monitoring wells have decreased with the exception of concentrations in well AS/A11, which appear to remain stable (Tables 1A and 1B). SUBSURFACE INVESTIGATION In the Site Assessment Report, dated February 23, 2009, ERI recommended the installation of a monitoring well in the vicinity of

boring HP2 with a 5-foot screen interval from approximately 74 to 79 feet bgs (ERI, 2009a). This well would allow long-term evaluation of concentrations in the first consistent water-bearing zone identified on the CPT logs below existing well screens. The County concurred with ERI's recommendation for the installation of groundwater monitoring well MW15 ERI performed the field work in accordance with the Work Plan. On October 30, 2009, ERI observed Woodward Drilling Company (Woodward), of Rio Vista, California, excavate soil boring MW15 to 8 feet bgs using air and hand tools. On December 1 2009, ERI observed Woodward develop well MW15 using a truck-mounted rig equipped with a 2-inch diameter surge block and an electric pump equipped with a digital flow meter Oxygen emitters have been installed since 2012. concurrence to shut off emitters 8/30/16. Verification monitoring. 40 wells have been installed which includes remediation wells and soil vapor wells. 4 wells have been destroyed leaving 36 wells to be destroyed upon direction. The nearest sensitive receptor is the Laguna de Santa Rosa approximately 600 southwest of the site. The site meets the Low Threat Closure Policy as follows: All General Criteria are met. Groundwater Specific Criteria is met by criteria 5a. Vapor Intrusion to Indoor Air Criteria is met by the exemption as the site is an active fueling station. Direct Contact and Outdoor Air Exposure Criteria is met by criteria 3a. Remediation History: Approximately 1000 cubic yards were excavated and properly disposed during the tank removal activities in 1991. A Soil Vapor Extraction (SVE) Pilot Test occurred from 8/4/92 8/6/92 removing 23 lbs of TPH. A Pump Test occurred from 8/12/92 8/14/92 removing 5,780 gallons of groundwater that was disposed of to the city sewer under permit. SVE and Groundwater Extraction (GWE) occurred from 1/8/96 5/97 (intermittently) removing approximately 8,000 lbs of TPH in vapor and approximately 3,200,000 gallons of groundwater which was discharge under NPDES permit CAG91101 removing 138 lbs of TPH. Oxygen Emitters were installed and operated from October 2011 October 2016. The emitters were installed in wells TW2, MW16, PD4 and RVP1. Site Management Requirements: Contingency planning is required for worker safety and waste disposal if excavating in area(s) of residual contamination. The Building Department has been notified. Newly proposed water supply wells may require siting and design by a qualified professional engineer or geologist. Sonoma County Permit and Resource Management Department has been notified. A Soil, Groundwater has been submitted and is on Geotracker. Site Closed on 1/11/18.

Case Worker: LCW
RB Case Number: 1TSO912
Local Agency: SONOMA COUNTY LOP
File Location: All Files are on GeoTracker or in the Local Agency Database
Local Case Number: 00025106
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Diesel, Gasoline, Waste Oil / Motor / Hydraulic / Lubricating
Site History: site history excerpts taken from data in the case file: The property was developed as a gas station from at least 1935 to 1979. Information indicates the former presence of four underground storage tanks (usts) including one waste oil tank. No information confirming the removal of the usts or subsurface sampling related to the usts was available. In October 2008 an investigation was performed to assess possible release from the former usts. A geophysical survey was performed to determine if usts were still present; four soil borings were also advanced at the site. Soil and groundwater samples were collected from soil borings. Laboratory results confirmed the presence of hydrocarbon contamination present in soil and groundwater beneath the site. Site was entered into the LOP due to a Phase II investigation. Trenching occurred in 2009 to verify underground storage tanks were no longer in the ground. 12 monitoring wells, 4 injections wells and 2 soil vapor wells have been installed. One monitoring well was destroyed. Remediation History: Ozone injection occurred in 2 shallow and 2 deep injection wells from 5/17/15 through 8/11/15. The nearest sensitive receptor is approximately 620 cross gradient from the site. Site Management Requirements: Contingency

planning is required for worker safety and waste disposal if excavating in area(s) of residual contamination. The Building Department has been notified. Newly proposed water supply wells may require siting and design by a qualified professional engineer or geologist. Sonoma County Permit and Resource Management Department (Permit Sonoma) has been notified. A Soil and Groundwater Management Plan has been submitted and is on Geotracker. The site meets the Low Threat Closure Policy as follows: All General Media Criteria are met. Groundwater Specific Criteria is met by criteria 1. Vapor Intrusion to Indoor Air Criteria is met by criteria 2a, scenario 3. Direct Contact and Outdoor Air Exposure Criteria is met by criteria 3a. The above findings were reviewed and concurred with by the LOP Licensed Professional. All monitoring/remediation/soil vapor wells have been properly destroyed. All investigative derived wastes have been properly disposed. SITE CLOSED ON 3/30/2021

LUST:
 Name: ULTRAMAR #700
 Address: 7898 REDWOOD HIGHWAY, OLD
 City,State,Zip: COTATI, CA 94928
 Lead Agency: NORTH COAST RWQCB (REGION 1)
 Case Type: LUST Cleanup Site
 Geo Track: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0609700002
 Global Id: T0609700002
 Latitude: 38.32875500199
 Longitude: -122.70797252655
 Status: Completed - Case Closed
 Status Date: 10/28/2013
 Case Worker: ZZZ
 RB Case Number: 1TSO001
 Local Agency: SONOMA COUNTY LOP
 File Location: Regional Board
 Local Case Number: 00001148
 Potential Media Affect: Aquifer used for drinking water supply
 Potential Contaminants of Concern: Gasoline
 Site History: In October 1986 UST were removed from the site and a release of petroleum hydrocarbons was detected. Impacted soils were overexcavated to the extent possible. Initial remediation included groundwater extraction from two wells in the source area. In 1991 Soil vapor extraction system was installed. In 1993 an air sparging system was installed. In 1998 groundwater extraction from two recovery wells was restarted. In 2005 an ozone sparge system was installed. Groundwater is impacted in both the shallow and intermediate water bearing zone to a total depth of 65 feet below ground surface. Elevated concentrations of TPHg and MTBE have declined and there is currently no free product on the groundwater. In July 2010 the remediation system was discontinued and groundwater is being monitored to determine if rebound will occur. Site was closed based on the Low-Threat Underground Storage Tank Case Closure Policy.

Violation Source: CERS,

Site ID: 160472

Site Name: TESORO (SPEEDWAY XP) #68122

Violation Date: 03-14-2018

Citation: 23 CCR 16 2636(f)(1) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(1)

Violation Description: Failure of the double-walled pressurized piping to be continuously monitored with a system that activates an audible and visual alarm or stops flow at the dispenser when a leak is detected.

Violation Notes: Returned to compliance on 03/14/2018. Bravo Box floats on dispenser 1/2 91 and diesel were out of adjustment. COS

Violation Division: Sonoma County Fire & Emergency Services Department

Violation Program: UST

Violation Source: CERS,

Site ID: 160472

Site Name: TESORO (SPEEDWAY XP) #68122

Violation Date: 03-16-2017

Citation: 23 CCR 16 2636(f)(5) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(5)

Violation Description: "Failure to meet one or more of the following monitoring requirements in lieu of the requirement to be tightness tested annually: The monitoring system maintains all product piping outside the dispenser to be fail-safe and shut down the pump when a leak is detected. The monitoring system shuts down the pump or stops flow when a leak is detected in the under dispenser containment (UDC)."

Violation Notes: Returned to compliance on 03/16/2017. Discovered that 87 STP relay contacts were fused, and as a result, VR relay settings for PSD were not being carried out, ie, no positive shutdown. Relay was repaired during testing and subsequent tests verified PSD for all sensors so programmed.

Site ID: 160472
Site Name: TESORO (SPEEDWAY XP) #68122
Violation Date: 03-14-2019
Citation: HSC 6.7 25284.2 - California Health and Safety Code, Chapter 6.7, Section(s) 25284.2

Violation Description: "Failure to meet one or more of the following requirements: Install or maintain a liquid-tight spill container. Have a minimum capacity of five gallons. Have a functional drain valve or other method for the removal of liquid from the spill container. Be resistant to galvanic corrosion. Perform a tightness test at installation, every 12 months thereafter, or within 30 days after a repair to the spill container. Tested using applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Tested by a certified UST service technician. Maintain records of spill containment testing for 36 months. "

Violation Notes: Returned to compliance on 08/22/2019. Spill containers for 87 fill and 91 fill hold less than 5 gallons. Technician measured 4.25 gallons into the Tank 1-87 spill bucket and 3.5 gallons into tank 2-91 spill bucket. Adjust the fill tube length in the fill sump to allow the spill bucket at least 5 gallons capacity.

Eval Type: Routine done by local agency
Eval Notes: County Fire Inspector Comments: Did not witness annual UST monitoring system certification performed by Randy Wilkerson of Service Station Systems, Inc. ICC certification expires on 12/15/2021. Annual monitoring certification was completed when inspector arrived due to miscommunication. This system consists of 3 double-walled tanks that were installed on: 01/01/1987. Visual Inspection: All sumps and UDCs were clean and dry, except for 87 fill sump. UST System Tests: -STP sumps are monitored by VR 208 sensors. Tested by immersion in water, all passed by triggering turbine positive shutdown (PSD) and audible+visual alarm on TLS350 console. -Fill sumps are monitored by VR 208 sensors. Tested by immersion in water, all passed by triggering audible+visual alarm on TLS350 console. -UDCs monitored by Bravo Float and Chain. All chains tight, floats trip shear valves when float well is filled with water. Adjustments were required for ... [TRUNCATED: Refer to full Inspection Report]

Local Agency: SONOMA COUNTY LOP
File Location: Local Agency Warehouse
Local Case Number: 00001345
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Gasoline
Site History: Excerpt from: Remedial Investigation/ Interim Remediation Plan (On-Site Technologies, Inc., 2/22/93) In May 1987, three gasoline tanks at the western end of the site were excavated and removed. Upon excavation and removal, these tanks were examined and found to be in good condition with "no holes observed." Six soil samples were collected in the excavation at 2 feet below the bottom of the tanks by Geonomics, Inc. (now OST) and submitted for analysis of total volatile hydrocarbons (TVH) as gasoline and benzene, toluene, ethylbenzene, and xylenes (BTEX). Gasoline was detected in all six soil samples at moderate concentrations (5.7, 13, 39, 94, 180, and 240 parts per million [ppm]). A report of the results was submitted to the North Coast California Regional Water Quality Control Board, North Coast Region (RWQCB) and the SCPHD on June 1, 1987. Following these findings, Geonomics, Inc. performed additional hydrogeologic investigations at the site during January and March 1988. This phase of the investigation consisted of drilling and completing three groundwater monitoring wells: GX-108A, GX-108B, and GX-108C. Elevated concentrations of petroleum products were detected in several soil samples and all of the groundwater samples collected from these wells. A report, dated March 24, 1988, presenting the results was submitted to the RWQCB. A further hydrogeologic investigation was performed at the site by OST in December 1988. This phase of the investigation consisted of drilling and completing three additional groundwater monitoring wells: GX-108D, GX-108E, and GX-108F. In addition, four soil borings, SB-108A through SB-108D, were drilled. A report presenting the results from the three additional groundwater wells and four soil borings was submitted to the RWQCB on January 30, 1989. An additional groundwater monitoring well (GX-108G) was installed and one soil boring (SB- 108E) was drilled, sampled, and sealed on July 27, 1989. The well and boring locations were selected to further assess the extent of previously reported petroleum products in soil and groundwater and to verify the groundwater gradient and flow direction. The results of the laboratory analyses performed during this phase were submitted to the RWQCB in a report dated November 27, 1989. A report dated August 28, 1991, describing the installation of monitoring wells GX-108H, GX-108I, and GX-108J, was submitted to the RWQCB. A quarterly monitoring program to sample and analyze the existing wells at the site was begun in June 1989. Monthly monitoring of water levels at the site was begun in May 1989. The latest Monthly/Quarterly Monitoring Report of July through September 1992 presents the entire record of groundwater analyses and water elevation measurements to date. This record shows that hydrocarbon concentrations have been detected in groundwater sampled from eight of the ten monitoring wells installed prior to the work reported on here. Concentrations in wells more distant from the former tank location have generally declined over the last year. Since 1987, Texaco has been conducting a petroleum hydrocarbon investigation at a former Texaco service station located directly across College View Drive. Texaco has installed a total of 14 monitoring wells at the property. Excerpt from: GROUNDWATER MONITORING REPORT NO.60 AND REPORT OF REMEDIATION STATUS 1st Quarter-2009 (RM Associates, March 12, 2009) The remediation system presently

consists primarily of groundwater extraction and treatment. Although a soil vapor extraction and treatment system consisting of a thermal/catalytic oxidizer is installed at the site and the system continues to be permitted by the Bay Area Air Quality Management District (BAAQMD), due to unusually high groundwater elevations at the site, the system has been operated for only two months during the past two years. Prior operation of the soil vapor extraction system, since 1996, had effectively removed hydrocarbons from the soil above the depth of 25 feet below ground surface (bgs). When the water table was above 25 feet, no detectable hydrocarbons were present in the extracted soil vapor. The decision was made, therefore, to operate the soil vapor extraction system seasonally, starting in the summer months when the water table receded to a depth of approximately 20 feet bgs. This normally would have allowed approximately five months, from mid-July to mid-December, for soil vapor extraction to remove hydrocarbons from the smear zone and from the lower impacted soil layers. However, in 2003, the period of the depressed water table was much shorter than five months and since December 2003 the water table has remained, on the average, well above 15 feet bgs. Therefore soil vapor extraction has not operated since that time. The groundwater remediation system at the site consists of groundwater extraction by turbine pumps from three wells and filtration of the extracted water through three 1,500-pound granular activated carbon (GAC) vessels. Until July 31, 2001, the groundwater treatment system operated under the provisions, of the California Regional Water Quality Control Board, North Coast Region (RWQCB) Order No. 95-43, and NPDES Permit No. CA 0024996. However, as a result of more stringent and expensive NPDES discharge requirements, discharge into the storm sewer was discontinued on July 30, 2001, after permitting was obtained through the Subregional Water Reclamation System, a sub-agency of the City of Santa Rosa California Utilities Department (Permit # RP-GW6059). The connection to the sewer system was made under the permitting and oversight of the City of Rohnert Park Buildings Department. Approximately 12,209,000 gallons of groundwater was extracted and treated from the site. (approx dates 4/1/96 through 2009). Approximately 29,626 pounds of hydrocarbons removed by soil vapor extraction from 4/96 through 11/01). A revision to the corrective action plan has been accepted 11/5/2009 and injection of oxygen will be used to remediate the site. Sparging injection points were installed April 12-14, 2010-four to 40 ft and one to 50 ft bgs. Lateral piping for the sparge system was installed in the first two weeks of June 2010. The oxygen generator was set up in the existing treatment enclosure on July 24, 2010. Operation of the sparging system was started Sept. 7, 2010 and shut down approximately July 2013. The site meets the Low Threat Closure Policy as follows: All General Media Specific Criteria is met. Groundwater Specific Criteria is met by criteria 1. Petroleum Vapor Intrusion to Indoor Air Criteria is met by the exemption as the site is an active fueling facility. Direct Contact and Outdoor Air Exposure Criteria is met by 3A. SITE CLOSED 1/8/16

NAVAL OUTER LANDING FIELD COTATI (Continued)

1010309838

Has Projects:	Yes
NPL Status:	Not on the NPL
Property History:	From 1942 to 1945, the U.S. Navy operated the Site as an auxiliary outer landing field for Alameda Naval Air Station and Santa Rosa Naval Air Station. The installation consisted of approximately five buildings: Operations building and control tower, fire and crash truck building, oil storage shed, water pump house, and a small arms storage building. OLF Cotati became operational in 1943, and was primarily used for touch and go exercises. The Site had two runways - one running east and west and one running northwest and southeast. An aircraft machine gun firing range was located along the east-west runway, at the western end. There were two 25,000-gallon gasoline storage tanks and a fueling station. The Navy ceased operations in 1945, and the Site remained idle for several years. It became surplus DoD property in 1954 and was ultimately transferred to the General Services Administration for sale. By 2004, all of the former OLF Cotati facilities were demolished and all traces had been removed. The area is currently developed with a combination of residential, commercial, and industrial property.
Project Required:	Yes
Feature Description:	Not reported
Latitude:	38.34777778
Longitude:	-122.72027778
FUDS Detail as of Jan 2015:	
Fiscal Year:	2013
Federal Facility ID:	CA9799FA495
RAB:	Not reported
NPL Status:	Not reported
Description:	The site is located approximately 5 miles south of Santa Rosa, in Sonoma County, California. This 216.95-acre parcel had an access road running north and south, which parallels U.S. Highway 101. The site was used as a landing field during World War II and contained an Operational and Control Tower, a fire and crash truck garage, two 25-gallon gasoline storages, an oil storage building, a well and tanks, a pump house, a small arms magazine and a machine gun range. Currently, the property is owned by Coddling Enterprises, which is a property management company. The property consists of a theater, retail stores, bank, restaurants, a trailer park, apartment buildings, and office buildings.
History:	A memorandum dated 21 November 1944 states that the former Outer Landing Field, Cotati, was known as Cotati Naval Auxiliary Air Station. It also states that 218.25 acres were acquired in fee by condemnation. On 16 June 1943, declaration of taking civil No. 4607 was filed between the U.S. and the Cotati Company for 74.85 acres, more or less. Although the final judgment of condemnation for 74.85 of the acres, dated 20 October 1943, was obtained, the condemnation for the remainder of the 218.25 acres was not located.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 11/16/2021	Source: Drug Enforcement Administration

LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

CERS: CalEPA Regulated Site Portal Data

The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 11/11/2021	Source: Department of Energy & Environmental Protection

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

GEOCHECK[®] - PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

7921 REDWOOD DRIVE
7921 REDWOOD DRIVE
COTATI, CA 94931

TARGET PROPERTY COORDINATES

Latitude (North):	38.332622 - 38° 19' 57.44"
Longitude (West):	122.716595 - 122° 42' 59.74"
Universal Tranverse Mercator:	Zone 10
UTM X (Meters):	524770.1
UTM Y (Meters):	4242552.5
Elevation:	102 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	12008107 COTATI, CA
Version Date:	2018

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

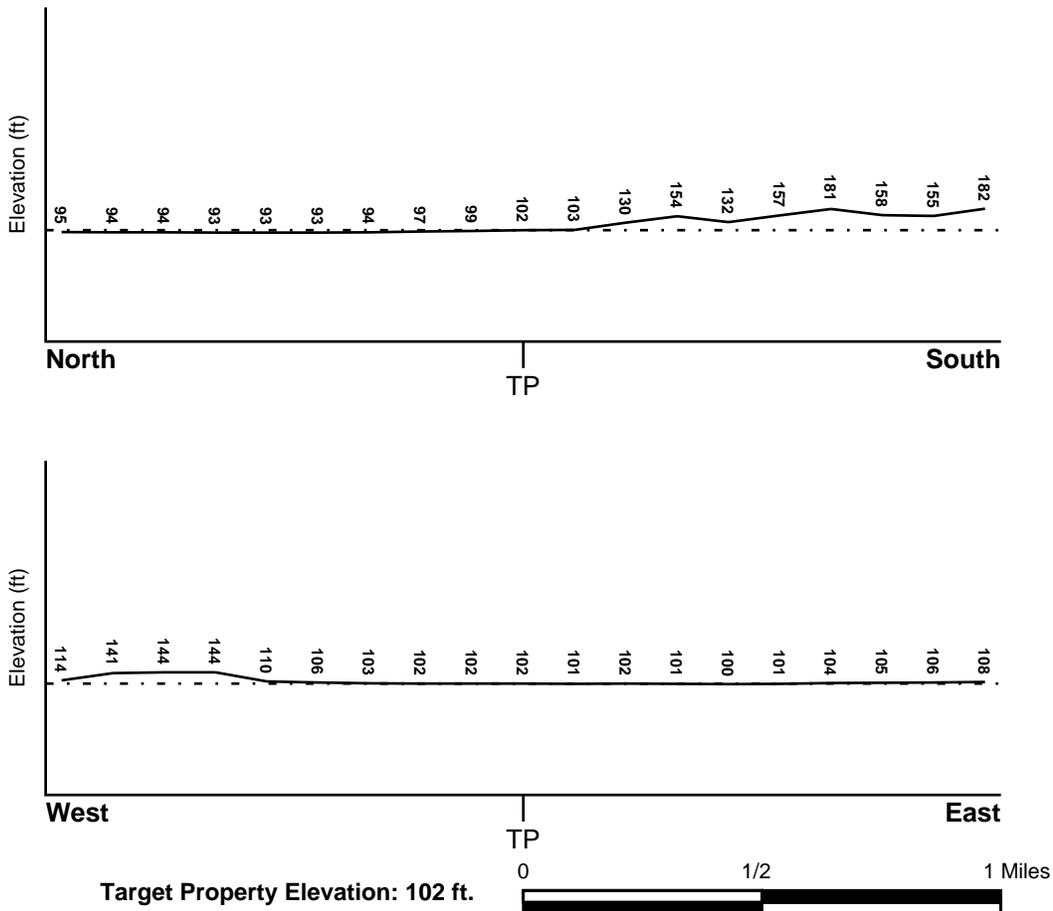

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General North

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
COTATI	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: HAIRE

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Moderately well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	20 inches	fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Clayey Gravel	Max: 1.4 Min: 0.42	Max: 5.5 Min: 5.1
2	20 inches	35 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Clayey Gravel	Max: 1.4 Min: 0.42	Max: 5.5 Min: 5.1
3	35 inches	59 inches	cobbly clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Clayey Gravel	Max: 1.4 Min: 0.42	Max: 5.5 Min: 5.1

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Map ID: 2

Soil Component Name: COTATI

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Moderately well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

2	22 inches	68 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Fat Clay.	Max: 0.42 Min: 0.01	Max: 5 Min: 4

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program

State Water Resources Control Board

Telephone: 916-341-5577

The GAMA Program is California's comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Health Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations

Source: Dept of Conservation, Geologic Energy Management Division

Telephone: 916-323-1779

Oil and Gas well locations in the state.

California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon

Source: Department of Public Health

Telephone: 916-210-8558

Radon Database for California

PHYSICAL SETTING SOURCE RECORDS SEARCHED

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRRA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities

Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater

Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Stantec were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # 5A83-47AD-93CB

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 5A83-47AD-93CB

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- Library of Congress
- University Publications of America
- EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

Stantec (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RESEARCH SUMMARY
